Wells was called to the chair, who, in a few remarks, called upon Mr. E. Jenkinson, the Chartist delegate, to give in his report, which he did in a manner which gave general satisfaction. The Chairman then called on the Rev. Wm. Robinson, the Complete Suffrage delegate, to give in his report, which he did in a manner which gave anything but satisfaction to the meeting. After each delegate had given his report the following resolution was proposed by Mr. Goode the Chartist sub-Secretary, and seconded by the Rev. J. J. nkinson, one of the Council of the Complete Suffrage Union, and carried, with but seven hands held up against it, "That this meeting, after hearing the report of each delegate, pledges itself, in a peac ful yet determined manner, to agitate for the People's Charter, that being in itself sufficiently simple, just, and efficient to give equal justice to all classes of the community." A vote of thanks was then proposed to the delegates for their services, which was carried after some discussion, and the meeting adjourned.

The initiation into vicious indulgence— its progress—its results in both sexes, are given with faithful, but alas ! for human nature, with afflicing truth. However, the Authors have not exposed the evil without affording a remedy. It shows how "MANLY VIGOUR" temporarily impaired, and mental and physical emasculation, produced by uncontrolled indulgence of the passions, can be restored ; how the sufferer, who has pined in anguish from the conse- quences of early indiscretion—afraid almost to en- counter his fellow man, can regain the vigour of health and moral courage. The work is written in a concise and perspicuous style, displaying how often fond parents aredeceived by the outward physical ap- pearance of their youthful offspring ; how the attenua- tion of the frame, palpitation of the heart, derangement of the nervous system, cough, indigestion, and a train of symptoms indicative of consumption or general decay, are often ascribed to wrong causes ; and in- stead of being the natural results of congenital debi- lity or disease, are the consequences of an alluring and pernicious practice, alike destructive to the mind and body."—Bell's New Weekly Messenger. A complete knowledge of the symptoms and treat- ment of these insidions and dangerons diseases, can only be acquired by those who are in daily practice, and have previously gone through a regular course i MEDICAL INSTRUCTION; for, unfortunately, there re hundreds who annually fall viotims to the igno- ant use of Mercury and other dangerous remedies, administered by illiterate men, who ruin the consti- tution by suffering disease to get into the system, which being carried by the circulation of the blood into all parts of the body, the whole frame becomes tainted with venereal poison, and most unhappy con- sequences ensue, at one time affecting the skin, particularly the head and face, with eruptions and ulcers, closely resembling, and often treated as scurry, at another period producing the most violent pains in the limbs and bones, which are frequently mis- taken for rheumatism ; thus the whole frame becomes debilitated and decayed, and a lingering death puts a period to their dreadful sufferings. What a grief for a young person in the very prime of life, to be snatched out of time, and from all the enjoyments of life, by a disease always local at first, and which never proves fatal if properly treated, as all its fatal results are owing either to neglect or ignorance. ## A REVOLUTIONARY ODE\* (From Tail's Magazine)

I did dream a bodeful dreaming: Thunders rolled, red fires were gleaming; Burth did quake And I may God's angel winging Barthward, earnest message bringing : Fearful in my ears 'his wringing:

Thus he spake : "Rouse thee, Wrath, and be a giant ! People's will that has been pliant Long, too long, Up ! and snap thy rusty chaining,

Brittle bond for thy restraining ; Know the hour; the weak are reigning; Thon art strong.

"Rise, and right the wrongs of ages, Balance Time's unequal pages With the sword ! Velvet-cushioned fools have alumbered. Wanton weeds my garden cumbered.

Now their barren days are numbered, Saith the Lord. "Hear, ye loveless narrow-hearted,

Few for whom the many smarted, Hear my word ! I have heard the people's moaning. I have known the poor man's groaning, 1 have vowed a sad atoning, Saith the Lord !

"Who have lived in pillowed pleasure, Ye shall now, in righteous measure, Eat the dust Who beheld the bondman sallow Pine, that ye in lust might wallow, Ye shall fat young Freedom's fallow; So 'tis just.

RULES.

TO THE CHARTISTS OF SOUTH LANCASHIRE. | order of laying down business, the Conference we 3 not | take to the DEARER ones ? Can this be expected ?

DEAR BROTHERS,-You are aware that previous to the isoning of the present Lecturers' Plan. a notice appeared in the "Northern Star" to the eff. ct that each locality forward to the District Secretary information as to whether they intend to remain on the Plan, or otherwise; the name or names of parties in their locality who were willing and competent to 1 - n! ---upon the Plan as lecturers for this district ; and whether any of those already on the Plan wished to have their names erased. But, notwithstanding this notice, and a delay of four weeks, to give time for them to forward the information required before the bringing out of the present plan, very few of the localities thought proper to answer the notice, or forward to the Secretry the information he desired. He, therefore, took their silence as an admission that they intended to remain on the Plan as usual; but no sooner is the Plan published, and the lecturers commence their labours according to its provisions, than first one place and then another state that they did not intend to be on the Plan for the present. And, in the same manner, Esveral of the lecturers have withdrawn their names. These proceedings have thrown the district into confusion, and rendered the present plan entirely useless. It is, therefore, indispensably necessary to get a corr of Plan out as speedily as possible. And it is hoped that the localities will not neglect their duty on this corsion, but forward the information required by sending delegates to the meeting to be held on Sunday, Jan. 22nd; or by forwarding, by letter, their determination. before the above date, to Wm Dixon, No 11, Nelson-

Manchester, Jan. 11, 1843.

TO ALL GOOD CHARTISTS.

Leicester, Jan, 9, 1843. BRETHBEN,-William Ellis's widow-and her innocent children are in need of an asylum. It is proposed to set her up in some small business-as a news-agent or something of that kind. John Cleave is the treasurer for a fund to be raised with that intent. We commenced it at the Conference, I took a cap round to every member, and the sum collected was £3 6s., in addition to 2a 6d. from Mr. O'Higgins, the chairman, and 2s. 6d given him for this benevelent purpose by some Complete Suffrage gentleman. I most urgently entreat you to use every effort towards raising this fund to a decent sum-a sum sufficient to start the poor widow comfortably.

Permit me, also, to throw out another hint. Cannot some of you point out a suitable locality for Mrs. Blils ? Some friends proposed that she should go to Burslem, but she sheds tears immediately when Burslem is mentioned-she dreads going there. Poor Ellis, too, in one of the letters I have received towards compiling the memoir (which I shall have ready very shortly) expresses a sense of horror at the thought of his wife and children going to reside at Bursless. Do you know the factions say, " they will exterminate the whole brood of the Ellises !"

Now, under such circumstances, I say poor Mrs. Ellis ch-1] not go to Burslem, and your hearts will impel you to say so too. Find a place for her, then; some good hearty Chartist lorslity, where she and her children deep-seated sorrow will permit.

They were told, h.y sincere friends, to be sure to manage their own affairs; but they thought they had gained the Corastitutional Charter, and all would be right. A s',t of lawyers forced themselves upon the people as their leaders; said they were democrats; persnaded the people they wanted their advice; secured themselves in power, and sold their employers. One of these said lawyers is now one of the Queen's Ministers, at Lisbon. The French people fought in 1830, and gained, b) blood, a glorious revolution. They drove a tyrni from his throne ; but, then, they could not manifi their own affairs, or they would not. What was the result ? They allowed a man to take the lead who accepted the title of Citizen King; and he has

done, with impunity, that which the despotts king only talked of doing, and the French are still slaves. In the following year the Belgians gained as complete

a victory over despetism as any to be found recorded in history. The whole was done by the working people; but when the middle classes at them masters, they came forward as leaders. The people put their affairs into their hands, and they sold them. The Belgians are now slaves again, with the difference, that under the Dutch yoke they supported half a royal family ; and now they have a whole one to maintain, and that likely to be a large one.

You see by these recorded examples, that it is of no use to agitate for, and gain by any means an object, except you are determined to manage it when you have got it. Let merit alone be a qualification for candidates who wish to serve you, -and baware of humbug!"

GonBALS .- The inhabitants of this populous borough, anxious to show their attachment to the principles of pure democracy, and their desire to act honourably by those who manifest a desire to promote the great cause of our country's political redemption, held a soirce and ball in the Chartist Hall, Clyde-terrace, on Wednesday evening, to which the Glasgow delegates to the Birmingham Conference were invited. Mr. John Cameron in the chair. The proceeds to go to liquidate the debt on the Chartist Circular, due to Mr. G. Rose. Long befors the chair was taken the hall was completely filled. On tea being served, the tables were removed to make room for those who could not be otherwise accommodated. The proceedings of the evening were commenced by our worthy friend, Mr. M'Millan, singing in his best style "Scots wha hae wi' Wallace bled." Mr. J. Adams being called upon, gave a minute account of the proceedings of the Conference. Mr. Moir said he regretted the result of the Conference. He thought they had acted injudiciously in not laying both bills on the table, while there was no compromise of principle; but the other party would not consent. He believed that a number of those who left the Conference contended that they were the Conference and not us. This was absurd. What would be thought of the corn law repeaters, if, on being defeated in the House of Commons, they were to withdraw, and meet in some other place, and declare themselves the Parliament ? Why, they would be laughed at, and very justly. He thought these men were endeavouring minority, they threw up their hats. Had it been otherwise, and they told the majority to look out for a place for themselves, would they have left the documents? No. He (Mr. Moir) was one of a deputation who waited on Mr. Morgan to ascertain whether he intended to continue as Eccretary of the Conference. If not, requiring him to give up all documents belonging to the Conference, including the minuter, the list of names, the credentials, correspondence, &c. Mr. Morgan was a little puzzled at the novelty of this demand. He (Mr. Morgan) was of opinion that the minutes and documents belonged to the majority, but hoped they would allow him time to consult his friends. They consented, and waited for one hour and a half, during which he believed Mr. Morgan was in close consultation with his friends. At last he returned, accompanied by the Rev. Mr. Spencer, &c., when he agreed to hand over to them private correspondence: this clearly proving they was possession of the field of public opinion they meant. The Complete Suffrage party must do

The parties objecting had an object in view; they calculated, on being in a position to commit the Conference at its first sitting.
