During this conversation, a Mr. Horsfall, an understrapping manufacturer, one of the saintly disciples of the League, began to vociferate like a moonstricken maniac, stating that he would bag all those in his or their employ who had anything to do with Chartism ; upon which, Mr. Ross told him that he was a striking evidence of the cruelties practised by the manufacturing despots of the age. After a little more conversation of this sort, this "humane" employer appeared so overcome with passion, as to be ready to faint. Ashamed of being made to look so truly contemptible in the eyes of the workies. by more rallied in their numbers to join the cry of whom he was surrounded, he stated that he could seconded the petition. Knowles seconded the resolution, which was spoken to with great earnestness, combined with glowing eloquence, by Bernard M'Cartney, of Liverpool, and carried unanimously. Mr. Sherrard moved the adoption of a petition to Parliament, which he supported in a speech of great ability. Upon this subject he (Mr. O'Higgins) published a Letter in the Northern Star of the 27th ultimo. That letter was not written with that care and clearness which he should have wished. He was going to the country when he wrote that letter, and had not one moment to spare; the letter there fore was not written with that care, accuracy and clearness, to which the great importance of the subject was entitled-hear, hear.) It was a most extraordinary change in the political movements of the country to see the letters from thirty places in Great Britain coming to so humble an individual as him (Mr. O'H.) requesting him to give a character of a man who once stood so high in the estimation of every Radical Reformer in Great Britain, but not one of whom would trust him now. He (Mr. O'H.) had no difficulty at all in believing that Mr. O'Connell had not the alightest hope or intention of repealing the Union; that the whole end and object of the repeal agitation was to force the Whigs into power sgain. The Catholic Clergy are sincere Repealers, and so also are the great bulk of the people. But he (Mr. O'H.) regretted very much that he could not look upon the Repealers in any other light than that of knaves and dupes. Repealers are divisible into these two classes. Depend upon it that in the event of the Whigs, Lord John and the rest of them, coming into power, the Repeal of the Union will be put in abeyance, and Mr. Daniel O'Connell will come forward as he did in 1837 "the Government candidate." People may imagine that they can keep Mr. O Connell to the Repeal question; but this is a great mistake. He will drive a coach and six through every promise he made to the public, and damn consistency, as he did before; demand a fair trial for the Whigs; declare that they are not like those of 1838-0-40; pledge himself that Lord John has given up finality; and ask the people will they not try the effect of "Justice to Ireland"?; call every Repealer an impracticable blockbead; and sill that Paddy, in his wisdom, staffs his to carry out their unjust and coercive acts. Holding " caubeen" in the window, not to let in the light or to carry out their unjust and overcive acts. Holding keep it out, but to keep out the "could." He will ask the right of every nation to discuss and repeal whatever the people to confide in him, and say if they had a cause to plead whom would they employ? Not the Tories, surely, who are opposed to the Liberal Government-(hear, hear). Keep the Tories out, will then be not give national freedom or just government, unless the cry; and Justice to Ireland will mean as it did be-fore, Whig places for the County Kerry road jobbers Mr. Robert Lowery seconded the resolution, After and their progeny. Nevertheless he (Mr. O'Higgins) would strongly advise the Chartists to petition and agitate for the Repeal of the Union for the sake of the measure itself, and not because Mr. O Connell was the treachersus and hollow-hearted advocate of that measure. Keep him to the point, indeed ! the thing is impossible. Look to his votes upon the Tithe Question. Surely his conduct towards the poor factory children cannot be forgotten. The Dorchester Labourers were betrayed. The Glasgow Cotton Spinners were pronounced guilty before they were tried, and by whom? by Daniel O'Connell, in his place in Parliament, and out of Parliament. # THE CORDIAL BALM OF SYRIACUM

Is a gentle stimulant and renovator of the impaired functions of life, and is exclusively directed to the cure of the Generative System, whether constitutional or acquired, loss of sexual power, and debility arising from Syphilitic disease; and is calculated to afford decided relief to those who, by early indulgence in solitary habits, have weakened the powers of their system, and fallen into a state of chronic debility, by individual in a state of anxiety for the remainder of but branch to moral ones; leading the excited de-viating mind into a fertile field of seducive error. into agradual but total degradation of manhood-into a pernicious application of these inherent rights which nature wisely instituted for the preservation of her species ; bringing on premature decripitude, and all the habitudes of old age :-such a one carries with him the form and aspect of other men, but with. will not be necessary for them to be in Liverpool till out the vigour and energy of that season which his early youth bade him hope to attain. How many men cease to be men, or, at least, cease to enjoy manhood at thirty ? How many at eighteen receive the impression of the seeds of Syphilitic disease itself ? the consequences of which travel out of the ordinary track of bodily ailment, covering the frame mortal poison ; conveying into families the seeds of disunion and unhappiness; undermining domestic harmony; and striking at the very soul of human intercourse.

The fearfully abused powers of the humane Generative System require the most cautious preservation: and the debility and disease resulting from early indiscretion demand, for the cure of those dreadful evils, that such medicine should be employed that is indulgence of the passions, can be restored; how the sufferer, who has pined in anguish from the conse-quences of early indiscretion—afraid almost to en-counter his fellow man, can regain the vigour of a concise and perspicuous style, displaying how often fond parents are deceived by the outward physical ap-Glands, Gravel, &c. shewing also the dangerous con- mation of that deplorable state, are affected with sequences of Mercury, such as eruptions of the skin, any of those previous symptoms that betry its pain in the bones, &c., with plain directions for a approach, as the various affections of the nervous perfect restoration : embellished with engravings. system, obstinate gleets, excesses, irregularity, ob-An ample consideration of the diseases of women : structions of certain evacuations, weakness, total also nervous debility; including a comprehensive | impotency, barrenness, &c. dissertation on the anatomy of Marriage, impuissance, celibacy, sterility or barronness, and various As nothing can be better adapted to help and nourish the constitution, so there is nothing more generally acknowledged to be peculiarly efficacion Also some animadversions on the Secret Sin of Also some animadversions on the Secret Sin of Youth, which entails such fearful consequences on its victims. ABERDEEN.-GLOBIOUS DEMONSTRATION IN FATOUR OF REPEAL-On Monday week, a public meeting was held on the Inches to take into consideration the propriety of supporting the Irish in their agitation for the Repeal of the Union. The area of ground whereon the hustings were erected was thronged by a commencing business, and a great deal of impatience was manifested by an immense multitude in the line of to the place of meeting. This throng considerably obstructed the progress of the passengers; and it was half-Chairman said he would with much pleasure bring before the very numerous and respectable meeting now before him a matter which he hoped had engrossed their most serious attention, in order that they might be able to decide whether they would coolly and carelessly suffer the Government to carry out its hostile threats against Ireland; or if they were, on the other hand, willing to stand forth at all hazards and shield their brethren of the Sister Isle while they are peacefully and legally wrenching themselves from the iron grasp of a privileged race, who have hitherto appeared much more willing to sweep that misgoverned and patient people from the face of the earth, than to fill their empty stomachs, clothe their nakedness, or otherwise administer to their wants. He could not help noticing the foul stain which had been cast upon the Protestants in Ireland by the Government, in its having asserted, with the greatest confidence, that they would act in concert with the military against the Catholic population. If such a report was true, he hoped the Protestants in Antrim, Down, Tyrone, Derry, Fermanagh, and Ulster would join their brethren of the same faith in England and Scotland, in

telling the Government that they hold such a declaration in utter detestation He then introduced Mr. James Strachan, who moved the following resolution : -" That this meeting views with strong feelings of indignation the tyrannical and unconstitutional disarming act for Ireland, considering it a base attempt to lay the people bound at the feet of a destoying aristocracy and to leave the means of defending life and property in the hands of bloodstained faction only. Also that i the Peel and Wellington Government carry out their threats and destroy the constitutional right of public meeting and free discussion of grievances in Ireland, this meeting pledgeth itself to make common cause with its brethren in Ireland, and use every legal means to bring those traitors to justice, and will deem every acts of Parliament they deem wrong and injurious; but yet we remain convinced that the mere establishment of a Parliament in Ireland or any country, will the whole people have the choosing of that Parliament." which a show of hands was called for, when a forest of sons of the Emerald Isle, and the resolution was declared These were also carried unanimously. This concluded the business. The meeting gave three hearty cheers for THE unexampled successs of FRAMPTON'S old Ireland, three for Feargus O'Connor, Esq.; three for Mr. Hill, for his advocacy of justice to Ireland, and tion. These Pills give immediate relief in all Spasthree for the Northern Star; after which the meeting modic and windy complaints, with the whole train separated, highly pleased with the orderly manner in of well-known symptoms arising from a weak stowhich the business had been conducted.

### ON THE PROJECTED UNION.

KRIN-OR THE MAID I LOVE

Tron a the Beauties of the Press," an Irish News paper devoted to the people, prior to the establishment of the Act of Union.

O fairest Maid that e'er was seen. My sweetest BRIN drassed in GRREN: Thouart my early, only love, And still to thes I'll constant prove. Tis true thy sister in her spite, Would tain conceal thy beauty bright : For she with envy sore is stung, Because she's old and thou art young. But the' she's rich and dresses fine. And her jewels bright do shine. Still she never can prevail To make my love for BRIN fail : To make my investigation of the second Art fairer far in simple GREEN. No jawel's instre e'er can vie With my lovely Brin's eye-Full of feeling, full of truth. Fall of the generous fire of youth. In vain thy sister shews her wealth. She ne'er can gain my heart by pelf: But then she tells me of the sport Which with her I'd find at Court : With this she thinks to turn my brain. And yet she labours all in vain : For while I live I ever mean To stay with BRIN dress'ed in GREEN. She too employs more subtle art. To draw away my faithful heart : Vile slander tells to wound thy fame. And rob thee of thy honest name: But when thy open mien I view. Sare well I know thy virtue's true: Thy simple air, and artless amile, Can ne'er conceal base falsehood's guile ; Nature has form'd thy face so fair The image of a heart sincere: And nature's child thou still hast been, Dress'd all in her favonrite GREEN. But to do mischief still intent. And on my Erin's ruin bent. This envious sister much I dread. When art cannot her wish bestead By force, by brutal force, may try. To rid her of her jealousy; O yes, my lears too just I find; She means my Brin's hands to bind : That then she may, with harb'rous joy, Her opening beauties all destroy. O come then Erin, come away ! O haste my love nor longer stay O haste this cruel sister leave, Her words are false, her smiles deceive. UNION ! she cries, with vip'rous breath ! UNION with her-is Erin's death. O come then Erin, come away ! O haste my love nor longer stay. See where in yonder golden clouds, The western sun his glory shrouds, There lies on Europe's skirt an Isle. Where nature sheds a genial amile. My Brin thither will I bring ; There call for her the sweets of spring, And when fierce summer's sun's invade. With her I'll court the grateful shade, With her the fruits of autumn taste, And shield her from rough winter's waste There envy shall not wound her peace. For there her sister's pour's shall cease. O come then Erin, come away ! O haste my love, nor longer stay. O haste thy cruel sister leave, Her words are false her smiles deceive. UNION she cries, with viprous breath, UNION with her-is Erin's death. 0 come then Erin, come away ! O haste, my love nor longer stay

Dr. Harrison said, he heard all Kildare was out of the peace; that Captain Frazer lived at Clonard; that Clonard was about seven miles from Cloncurry; and that Cioncurry was the direct road from Kilcock to Clonard.

Mr. M'NAILY informed the Court that the Crown rested the prosecution here. On behalf of the prisover, the Rev. Thomas Knipe

was produced and sworn. Examined by Mr. Ridgway-He said he was a ma gistrate for the counties of Meath and Kildare ; that he knew Captain Frazer a long time ; that he had been in habits of great intimacy with him ever since he came long time in so disturbed a state, that ne well-affected man's life was safe an hour; that the situation

of the country was so very alarming, from the great number of murders and robberies that had been committed, that he found it necessary to apply to the Commander-in-Chief for a strong military force; that he had even found it neceesary to apply for artillery. Had he met Dixon at twelve o'clock at night, he would most certainly take him up, or the gentleman himself, or any other man, at such an hour, till he gave a proper account of bimself. Captain Frazer is not a magistrate. At such times as these he thought it his duty to take up any man in the country out of his house at unseasonable hours, though he had not been a magistrate: that witness desired Captain Frazer to do so. He had no doubt but that every commanding officer had a right to do so. He does not believe that any man could properly take ap men unless they were military officers or magistrates. Witness gave directions to take up persons in the line of the country from Clonard to Cloncurry, at a distance of six or seven miles. BONNYRIGG-Much excitement has been timed here, and in Lasswade, during the past week, by course of six lectures being delivered in the shool-room, by Mr. Galt, on Phrenology, and Phreno-Mezmerism, or Animal Magnetism. ## FEARGUS O'CONNOR AND THE NOTTING-HAM ELECTION.

Pre Varius, Holow Dumber 40.

TO FEARGUS O'CONNOR, ESQ.) New Radiord, near Nottingham, June 5th, 1843.

DEAR SIR,-We have done our best in tracking to they source the infamous calumnies that were so freely circulated in Nottingham and its vicinity, and have succeeded so far as to leave no doubt upon our minds from whence they sprung, and the unworthy motive that dictated them; and also we are happy to inform you that every one, even the very worst amongst your calumniators have been compelled to eat their own words, and confess themselves the prepagators of lies, and that there never was the least foundation for their wicked attempts to injure your character by slander,

as the following account will show ----In the first place, you was charged with receiving £28 for your services at Mr. Sturge's election; but the enclosed letter of Mr. Beggs will set that at rest; and your own letter to Mr. Beggs, containing an account of the appropriation of the £27 TOs will do away with the charge that yes received 25 for a gentleman, and only paid him £3, and pocketed the other £2.

Now, Sir, this report arose from the following cir comstance, 23 we are informed by Mr. Begrs, Mr. H. Cartwright, and others :- Mr. Mead, to whom you paid £3 10s. met Mr. Bean and thanked that gentleman for the kindness of the Committee in paying him £3 102. for his expenses; and then it was ascertained that in the list you gave into the Committee, £4 was awarded to him, and yen had only paid him £3 10s. And 29 tales lose nothing by passing through dirty channels, it had increased to fo; but your own letter explains that, and does away with charge the second.

In the third place, you was charged with demanding of Mr. John Rogers, a rich and respectable hosier, o Nottingham, the sam of £19 for your services at Mr. Gisborne's election, and was told by that gentleman he had no funds for such purposes. Well, Sir, we have seen Mr. Rogers, and he anthorised us to say that he never saw you but twice in his life, and never exchanged a word with you, or in any way, or through any person had he ever held any communication with yon; and in accordance with that he has published his contradiction in the Notlingham Mercury.

WELSH CHARTISTS.—A correspondent thus writes us:---

In answer to the questions in last week's Star about the Welsh Chartists-"Where are they? What are they doing? Are they still alive?" We are here still, and doing as much as we possibly can under present circumstances. Yes, the brave men of the hills are still alive, for all some of the leaders have stood in the back ground for some time, for reasons best known to themselves, the people are determined to do their own work, and trust not even to their friends any more. It is true that the oppressors have taken advantage of these bad times to clog the wheels of Liberty's chariot ; but ere long they must give way, and confess that the people are enlightened and are determined to have their rights.

If our brothers in England do not know whether we are dead or alive, the tyrants here know well, to their mortification, that we are still at our post"

10URNAL-CLEVELAND, FAIRPORT, BUF. FALLO, NIAGARA RIVER, THE FALLS, AND SURBOUNDING DISTRICT.

FRIDAT, 9th-At five, a.m., we entered the port of GLEVELAND, in Ohio. CLEVELAND is to the left, and Onto city to the right of the river as we enter. I passed this place in the night when going West, and swit only by moonlight. On our left is a long street m the side of the river, about a quarter of a mile of the folly and extravagance of speculation mania. from where we lay; and after ascending a pretty steep hank, we enter a street described in my former notes I had a fine view of OHIO city, which is principally built upon the opposite bank, of about the same elevation A small portion is upon the slope or inclined plane, and a small portion, consisting of storehouses, on the flat bottom or brink of the river. It seems a place of less business and busile than on the Cleveland side. A small foundry was in active operation near the enmore by the old river.

CLEVELAND is a place of great business, and there is deal of shipping in the river, it being the entrance to the Erie and Ohio canal.

We remained here five heurs, and took in coal and frawerh.

We had a fair wind, and travelled 181 miles from. DETROIT to this place in an unusually short space of

FAIRPORT, on Grand River, is a very small place, a few storehouses. A short distance from this place, and bordering on the forest, is the village of Richmond. Its appearance is clean and neat. A little beyond, I was informed, stood a considerable town named PLINESVILLE; that name being given it in honour of the famous THOMAS PAINE, author of the Rights of Man, and who figured in the French and American revolutions.

The county all along the abores of this lake (Brie) are covered with wood, excepting the clearings which are rather numerons.

SATURDAY, 10th-BUFFALO.-I rose at break of day, and prepared for landing, having just got ready to go, where it is dangerous in consequence of its being in neath the Falls, or between the perpendicular surface achore when the vessel was Isid alongside the pier. My kind friend, Mr. Spencer, was instantly on board to look for me. On getting into the river we had a tolerable view of Fort Erle, (Canada,) in ruins. We passed Waterloe, Black Rock, Dam Mills, and the foundry on the Great Breakwater, Beaver Island, and Grand Island, which we passed on the West or Canada side of the Island. This aland and the land on both sides of the river is gener-

We next arrived at NAVY ISLAND, from the head a which, our view being clear, the spray of the FALLS was visible, resembling the smoke of a large number of furnaces ; or, perhaps, more like the smoke from a collection of limekilns.

After passing NAVY ISLAND we put in at SCHLOSSER. where the far-famed steamer Caroline was cut away and sent over the FALLS. Here we landed a few passengers for the railway, which passes near the river on

ADDRESS OF THE CONGRESS OF THE RATIONAL SOCIETY TO THE CHARTISTS.

FRIENDS AND FELLOW MEN,-The Congress of the National Society being deeply interested in the fallen state of the industrious classes, and greatly dissatisfied with the present condition of all classes, having met in their Annual Session at their Hall, in Hampshire, desire to address you on the false position and dangerous state of all parties throughout the empire.

It is now admitted by the highest authorities in the country, that among the working classes there is much ignorance, poverty, destitution, crime, and extreme suffering; and these evils evidently arise from the neglect and oppression of the wealthy-to the deep and lasting injury of all ranks from the highest to the lowest.

I bought some rich maple veneers, as samples to bring with me, also some black walnut, which, when polished, offer a suggestion, he instantly leaves his instrument. He performs upon other instruments, as well as the piano.

In my round through the city I was told that the up a spirit-that they had met, engaged and defeated the military-that they had ransacked and burnt the property of many individuals, and that no doubt the " Revolution" was eff-cied.

I learned that on the Erie and Ohio canal, there is a community in which is included a considerable town named Zoar; it is under the control of a chief, whose name I did not learn. Their possessions are very extenrive: their gardens are also large and kept in the best possible order, abounding with fruits of the richest description. It is a place of great attraction and resort No charge is made for admission to view the place; but should any one pluck a single apple, a charge of a York milling (61d) is made.

MONDAY, 12th .- I rose early this morning and pre" pared to depart. Mrs. Spencer, purposely to stop me, did not leave her room till late, and sent a message to (Mrs. S.) bought a quantity of Tomatos and preserved best thing in the world for refreshing, for richness of fistour, and for preserving health.

I visited the "Great Western," the finest steam ship on the Lakes. She really is, in all respects, an admirable ressel.

We visited the foundry of Messra Williamsen & Co., which is a very next and well contrived establishment for forging, casting, cleaning, and finishing steam sogines and other machinery. There was a vast quantity of exquisitely finished models for castings. Mr. Wilkinson, the senior partner, a native of Glasgow, told w that the best moulding sand could be procured in abundance only two miles from the place. He also showed me excellent coal, mitable for blacksmiths. Which was got at no great distance and at a low price.

While I am writing, the flashes of lightning are following each other in rapid succession, and the peals of thunder are terrific, while the rain descends in forrents, like that described at the deluge, when the windows of heaven were opened. It could not pour down faster if the doors were also thrown open, or taken off the hinges altogether. Lightning is of very common, almost nightly occurrence. I frequently watch it in the evenings, and admire its bolts, its brilliancy, and its fantastic motion. Nothing comparable to it in grandeur is ever visible in Britain.

We next visited the Arcole Iron Foundry Warehouse Mr. Wilkinson, one of the partners, was very polite, and showed me and described his various descriptions of goods, and presented me with a drawing of some stoves for cooking, which are in general use wherever I have travelled in the States. "As it flows from the lake, the river is about three quarters of a mile wide, and from twenty to forty feet deep. It maintains the former depth to the Falls. Five miles from the lake it is divided into two channels by Grand Island. The eastern channel has a width exceeding 100 rods; the western larger, and generally deeper, forms the boundary between the United States and Canada. Grand Island is twelve miles long, and contains 17,384 acres. Neither the snows of winter nor the heats of summer, nor rains, nor drought materially affect the volume of this majestic river. Its shores on either side are thinly settled between BUFFALO and the Falls. On the American shore, are two villages only, BLACK ROCK and TONAW ANTA. Thick forests still cover the bank, with some farm houses, few a d far between. On the Canada shore, are WATERLOO, opposite to BLACE ROCK, and the hamlet of CHIPPEWA, opposite FORT SCHLOSSER."

NOTICE IS HEREBY GIVEN, that the Mid-summer General Quarter Sessions of the Peace for the West Riding of the County of York, will be opened at Skipton, on TUESDAY, the 27th Day of June instant; and by Adjournment from thence 28th Day of the same month of June, at Ten of the Clock in the Forenoon of each of the same days; several Sessions, are required to attend the Court on the several Days and at the several Hours above mentioned.

Serrowing that it is our painful duty to call the attention of the various localities of this district, to the care of those sterling friends of suffering huma-nity, Mr. Cooper and his com-patriot Mr. Richards, South Lancashire to bestir them and call meetings imm diately to petition Parliament in their behalf, and to send such petitions for with to T. We hope, therefore, that the time that is passed will more than suffice, and that for the future they will see the necessity of having their representatives present to assist in devising plans for the carrying out of those principles which cottages of contentment, and our country glorious, happy and free.

Breitren, the task of addressing yon on this allimportant subject, has so often fallen to our lot, that anything we can advance, by way of appealing to your love of country, would be little more than uscless repetition. Our business with you now is to point on: the necessity of adopting some practical plan, in order to secure the object which has cost as so much labour, money, and suffering to carry it to its present proud, though in some measure disorganized state

Fust, then, it is our particular desire that each locality will choose a delegate to attend a meeting of the South Lancashire delegates, to be holden in the National Charter Association Room, Brownstreet, Manchester, on Sunday, the 18th of June, call will be responded to in a manner worthy of each locality will not fail to instruct their representative as to what course they would deem it advisable to pursue in order to place this division of the country in that position which its importance in this traly great movement so eminently entitles it to. The delegates will be required to come fully prepared to vote upon the following questions :-1st. Your opinions relative to the election of a

new Executive Council for the Association.

3rd. As to the workings of the present local lecturers' plan, and whether it should be continued or otherwise.

4sh. To give your opinions of the propriety of holding Chartist camp meetings during the summer months in various parts of the district ; and whether you think they would be attended with good results to our movement or not.

We hope you will not fail to give the above questions that consideration which their importance requires, as much depends upon the decision which TOU DAY come to.

Let every parent inculcate on the untutored mind of his offspring, the never-dying principles of liberty, the absolute necessity of good Government for the preservation of his liberty, and from a living death, by protracted distress, and for those essential materials which make life desirable. HUDDERSFIELD MARKET, JUNE 6.-The was a very large attendance of buyers this day, and very little business done in any description of goods.

MANCHESTER CORN MARKET, SATURDAY, JUNE 3. The weather during the week has been exceedingly wet and ungenial ; and, with continued scanty supplies of prime Flour, the trade in that article has been of an animated character, at prices exceeding those previously obtainable. Oatmeal was in mode rate request at fully late prices. The imports of Oats and Oatmeal from Ireland this week are large; of Flour there are 3,354 sacks reported ; and of other articles they are to a fair extent. The supplies Coastwise are only moderate; and from foreign ports 4,560 qrs. Wheat have arrived. Our market this morning was fairly attended, but the transacld, to 2d. per 70 lbs. on the rates of this day sennight. ment of 6d. to 1s. per sack was generally realized. Oatmeal met a moderate inquiry, and we raise our quotations 6d. per load. Oats, Beans, and other

articles were without alteration. LIVERPOOL CORN MARKET, MONDAY, JUNE 5.-Up to this morning we have had almost constant and heavy rain, which has drawn more attention to the grain market, and has given an upward tendency to prices. The millers and dealers have bought free Wheat to a moderate amount; at yesterday's market a few parcels were taken on speculation and the advance during the week may be stated generally at 2d. to 3d. per 70lbs. A cargo of Polish Odessa Wheat has changed hands in bond at 44, 84, per 60lbs. Flour must be quoted 1s. per sack and barrel dearer. We have had but little passing in Oats at last week's rates. Oatmeal has met a moderate demand on'y, at 20s. to 21s. per load. There is no alteration to report as respects Barley, Beans, or Peas.
