TO THE LANDLORDS OF IRELAND.

" If England, with her proper power at home, Cannot defend her own door from the dog, Let us be worried ; and our nation lose The name of hardihood and policy." SHAKSPEARE-HENRY V.

MY LORDS AND GENTLEMEN,-Removed from the busy haunts of man; away from the bustle of the world; free from malice, hatred, or ill will towards any living thing; and prompted by a sincere love to serve all, without doing injustice to any, I assume the task of addressing a series of letters to you. which I hope to perfect without the introduction of pelitical controversy. In that namphlet I implored of the landlords and other parties to reform the several abuses of their respective hopelessness of justice coming from the aristocracy. I was then denounced, driven from society, and branded as a rebel; but, my Lords and Gentlemen, the legislature has since passed a separate act, for the purpose of correcting the very abuses of which I complained as existing among those several orders.

I complained of sub-letting as a great grievance, as regards landlord and tenant; and of many other grievances also. The legislature passed a sub-letting act merely nibbling at the abuses of the system, but! stopped short of interference just where it should have commenced.

I complained of the individual, ministerial and indicial acts of magistrates; and the legislature justified gether, and in open court.

I would not be one of them, as I am resolved to remain as sentry over the fustian army of observation. But, while I thus select my own port, I would give the garrison twenty times as much strength as if I

Now. I will lay down a few facts for you. Neither the House of Commons' Reformers or the House of Commons' leaders of any one great question ever yet intended to extend to the people the whole or what they promised. They have gone far enough to hound the popular cry on, in anticipation of all the promised results, and when their own object has been achieved, then have they turned upon the "ig- Myers. norant people," and taunted them with madness. in having, so violently and erroneously misconstrued those opinious, which, while enforcing, they took particular trouble to prove were in exact accorda with popular notions. In fact, the people never, till now, were in a fit state to judge whether they were or were not duped by their leaders. The very same course has been pursued by the liberal press. I will give you two melancholy in-stances; one furnished by the Weekly Dispatch, the other by the Leeds Mercury. For many years, Fublicola, a writer in the Dispatch, had been taunting the people with passive endurance of wrong, and actually brought the public mind up to a high pitch of contempt for royalty, and all the institutions of the country. Well, in 1838, when the men of Birmingham responded to the national call, and placed Universal Suffrage upon their banners, "Publicola" turned round and denounced them. Since then, "Publicola" has boasted of his own forwardness, and jeered at the little good that could be expected from the practical workings of the Charter. He has also been loud in his donunciation of royalty, and all ancient institutions, and has attempted to palm some absurd thirty-nine articles of political faith upon the Chartists. But since the dissolution of Parliament, this anti-monarchist, and hater of all institutions, has told us that he is " more than a Charlist," and, therefore, opposed to Universal Suffrage, and the Payment of Members; and he has recently actually denounced the wife of the Superintendant of the Woolwich Dock-yard, for not being as well dressed as the Queen, upon the visit of her Majesty to see her ship, the Trafalgar, launched; nay, he is loud in his complaints, that this lady did not lay aside was well received, and gave the greatest satisfaction to her soul's mourning, and dress inward grief in outward joyous galety, in honour of Royalty; he also joined the society; we have now a good prospect of complains that the police and attendants did not going a head. take off their hats often enough ; and bow low enough to Royalty : he also complains that the furniture of her reception room was not sufficiently expensive, and that the servants had the matchless insolence to move about in her presence, regardless of Royalty; and further, that they swept, and dusted the tables, and chairs, and he rejoices that the servant in waiting upon her Majesty was made to smart under the withering scowl of offended Royalty. The Mercury was the cause of fourteen poor men being hung upon one and the same day at York Castle ; the Mercury has invited assaults upon landed property, and has gone far to create revolution in enable them to do their share in paying due honour to favour of Whiggery and " Reform." Feargus O'Connor, Esq., at the coming demonstration. Now, then, mind. Let the Whigs dissolve upon cession. the principles promised in the Reform Bill, that "taxation and representation shall be co-extensive," and, humble as I am, I pledge my life upon the issue, which shall be even with the present electoral body backed by the people, to change the Tory majority, from whatever it may be to a mere factious minority ; but then we will secure the return of our nen first or it is no go. The past elections have proved that where Chartism was represented on the hustings, the people were ready to rally upon the moral strength of their cause, and its representation in the House would be the only means of insuring its legislative success, which if denied, will assuredly be accomplished by other and less desirable means. Brothers, upon no conditions whatever can we inite with either party, upon the understanding that we abate a pin's point of our claims. We re-fused it to the enemy when strong, and shall we now weaken ourselves by becoming partners in a totter ing firm ! Never become tenant to a falling house. or join in business with a declining partner. We must not now fight the battles over again, wherever any one body of our local friends have, from justifiable causes, acted an apparently different part from another body, we must not assume that either were probability is, that in all and every case, the Chartists were right, and, indeed, I am sure they were.

A gentleman has kindly offered us a place to meet in, which I hope will be the means of uniting the good men and true of this place in the holy bonds of the Charter. Goon, ye glorious few ! thats of the house, which, he regretted to say, were in a traly deplorable condition. It would be for the for another season, or to bring it to a close at once, by a declaration of insolvency. "It is clear as the fin at noon-day," said the unfortunate gentleman. "that to this complexion we must come at last, and noter n Rowland (Hill)'s Kalydor can protect us from it much longer."

Of that justly popular cosmetic he could not, howerer, speak too highly, as it had saved the concern from sinking long ago. It had taken with the public immensely,-the sale had been prodigious ;- and it had obtained for the concern the warm support of that amiable portion of the community of which he (the respectable gentleman himself) had ever been a most devoted admirer,-he need hardly say that he meant the ladies. Moreover, since the introduction of the new envelope, embellished with an elegant metallion head of her most Gracions Majesty (Heaven save the mark !) the sale of the article, Rowland (Hill)'s Kalydor, had very much increased. Of the he could not speak so favourably ; the sale was large enough, but it was not so much in favour with the public, at least, that portion of the public with whom he happened to be acquainted. It has, however, given very extensive popularity to the house, and hal even been the means of giving a very appropriate pubriquet to the firm, which was now very generily denominated the sticking plaister concern. Nevertheless," continued the worthy gentleman, it will hardly be requisite for me to inform my parimers that this speculation has turned out a bad one. Norwithstanding the compliments that have been pud to us respecting this article, I regret to fiste, that the payments in cash have not been so abundant; and, as "smooth words butter no parmips," we are daily losing enormous sums of money by the undirtaking.

did net think that it was merely a question of whether this or that patent medicine were best adapted to the national constitution. He sadly feared that

all such specifies had had their day, and that Mr. Ball and his numerous family were now sick of quack medicines altogether, and were determined to have recourse to the regular practitioners again. He was induced to form this opinion chiefly from the failure of many notable articles which he had himself introduced to the notice of the public. He alladed to his well known "American Soothing Syrup,"-" The Syrian Powders and Pills," and, abore all, the "Chinese Cement," These had a wierably good run at first, and the affairs of the house began to look up ; but it was now found out that none of these wonderful things produced the Ent for which they were intended. Cavillers pre-unled that the "Southing Syrup" only produced greater irritation,-that the "Syrian Powders" were not efficacions,-and that the "Chinese Cement" wouldn't hold. Mr. P. finished by stating, that he was atraid it would be entirely out of his power to introduce any other novelty, as he had mally exhausted his inventive faculty by previous exercion; and, much as he should deplore the becurrence of such a catastrophe, he feared that the annihilation of the concern could not much longer be delayed.

Mr. Melbourne then requested the serious attention of the members of the firm to the balance-sheet their affairs, by which it appeared that a most airming discrepancy existed between the accounts begged them to reflect on the consequences of a conincance of such a state of things, and stated it to be his opinion that, unless one of the partners could magest the introduction of some nottrum to catch he million, and turn the ebbing tide of popularity, " world be better to give up the concern instanter. most profound silence, and never once ventured either to refute, or even to explain away, the lasting di-grace into which the Whigs of Bradford, by their own acts, or the indiscretion of one of their own party, are irretrievably plunged. The individual above alluded to, Judas-like, pretending great sympathy for the Chartists and admirstion of Mr. Simpson's principles, subsequently attempted a feeble vindication of his own treacherous conduct which, poor simpleton, only the more confirms the guilt of his party. Mr. Clarkson then proceeded to detail Mr. Simpsons's introduction through Mr. Edmund Stallwood, an acknowledged leading Chartist in the neighbourhood of London, and showed, sitting-plaister, sometimes called court-plaister, from Mr. Simpson's correspondence with the Committee, his readiness to follow up the publication of his address by an early personal canvass; when, much to their astonishment, on his being apprised of the intention to give him a public reception, he unexpectedly declined the honour. In this dilemma. Suppose that the people had joined in the insane and clap-trap cry for Household Suffrage, might not the practical moulders of that measure have given detailstampof "Whigfinality;" and after experimentalising for nine years, might its supporters not then discover that that also was not a final measure when superior Tory tactics, wealth, organisation. and watching, added to public disappointment, had made a second transfer from Whig to Tory hands : and may not society be thus kept in a constant alarm by a perpetual fishing for the minnows of Whig finality?

Have we not stunned the Whigs with the assurance that any money standard of franchise, however nicely it may suit them in the outset, will, by degrees, lapse into Tory possession, and be used for Tory preferment ? Have they not had full and ample proof of the fact, in the re-action which has taken place in the constituencies of their own creation since 1837, (four years); and, during that time, have they not had all the odds of possession, royal favour, secret service money, and all the means of suppressing the very power which gave them birth. in London for several years past, and we deny the truth and which they have most brutally, unscrupulously, and unmercifully applied ? and have they not had an UNOPPOSED reign, a clear stage and no favour, except to damn them 1 and, having failed with such odds. them. And, in the absence of such proof on our part, of that body to whose decision they so confidently appealed on behalf of our beautiful young Queen?

Will it do now to say, "We will not abide by the decision ?" How can they back their objection ! Can they say, " The country is with us, and a large charge against them all, and we ask for proofs; and, in minority and the country, that is, the people, (not the absence of this proof, we leave the public to judge the ten pound houses,) should have more weight than a majority"? Such may be sound doctrine; but when one honourable gentlemen counts for more than two millions of the said people, what then ? Why, then it will require ten millions to balance even a minority of five ! Alas ! these are awkward precedents established in the dying movements of the Whigs.

The excitement was too great to allow time for a reply to the remarks ; every eye was rivetted upon the agitated and shaking corpse. The operator continued to let upon it a full quantum of the galvanic fluid, till the action upon its nerves became so powerful that it made a tremendous bound, leaping by a sort of imperfect plunge into a corner of the room, disengaging itself entirely from the wires which communicated the galvanism. letter of Saturday, the 3rd. IR. U'CONNOR has made arrangements for contesting the seats for Edinburgh, Norwich, Newcastle, and Sunderland : but it would be imprudent to publish notice of the intended course, as the enemy generally succeed by secresy and stratagem: however, Mr. O'Connor suys that he has not a shadow of doubt upon his mind as to the illegality of the return in each of the above places.

B. U'CONNOR received the very flattering address from the fimales of Oidam; he thanks them most sincerely, and will go on as he commenced. and is alad to find he has gained their approbation. Mr. W. complied and addressed the brethren not to coufine their philauthrophic exertions to their human happiness and remove the causes of existing suffering. Brother Anderson gave-" The Good Old English Gentleman ;" the chairman, " the health of Mr. Crosby." Mr. Crosby returned thanks and concluded by presenting the society with £1. Mr. Midllehurst gave-" Friendship, Love, and Truth," and recited a piece of poetry, appropriate to it. N.G. Reed, being invited by the chairman, then rose and gave-" Prosperity to the Manchester Unity of Odd Fellows," and supported the same by an able speech, in the course of which he gave many striking facts, llustrating the rapid spread of Odd Fellowship (its acrease averaging 100 per day,) and comprising, at the present time, about one-twenty-fourth of the population of Great Britain, and the clear annual surplus of its fund being upwards of £1,300 per annum. He concluded by exhorting all to renewed energy. (Loud cheers.) Brother McCuly gave-" May the Order of Odd Fellowship flourish like the Rose in

Spring, and its bright beams illumine every Nation of the Earth." (Cheers.) Brother James Smith rose and said, he had to propose the health of a gentleman then present, who had been invited as a guest, and who would give them the benefit of his services as reporter for that excellent paper, the Northern Star. (Cheers.) The gentleman to whom he alluded was Mr. Williams. Mr. McCully next gave-"The Widows and Orphans' Fund," which was ably and eloquently responded to by N. G. Reed, who gave numerous facts in support of the utility and admirable workings of that fund. The healths of the chairman and vice-chairman were severally given with the usual honours, and suitably acknowledged by those gentlemen. It having been represented to the members that two of the brethren had been for some time out of employment, a collection in their favour was proposed and carried into effect, producing the sum of £1, which was divided between the two brethren, and acknowledged by them with carried off as much as 1 owt. of coals each time. The wretched creature, who made her appearance for about the fittieth time at this court, has been known to the river police as a 'mud lark" for the last thirty years, and she has been repeatedly fined and imprisoned for plundering the coal-barges, but she no sooner leaves prison than she is to be seen wading through the mud amongst the coal barges, picking up stray lumps of coal, and forcing large pieces overboard, which she 'Ipaints' in a peculiar manner, by first washing the dust off with water, and afterwards rubbing the mud over them, to give them an appearance of having fallen over by accident. It is this unlawful trade which has so often got Kate Macarthy into trouble. Last winter, during the severe frost, and while the river was covered with ice, and the coal barges were locked in opposite the wharfs by masses of ice, was the old woman pursuing her business, alternately wading up to her arm-pits in the mud, and then walking into the river to wash herself, the ice and the coldness of the water seeming to make no impression upon her. She is the dread of the Thames-police. and has often set them at defiance. On many occasions, after wading through the mud-bank, she has embraced the officers like a bear, and, after halfsmothering them. has left them as muddy as herself. On Monday the prisoner was detected among the coal barges at the Salisbury-wharf, belonging to Messrs. Pugh and Judkins, in the Strand, and Grimstone, a Thames police inspector, observed her take some large pieces of coal off the barges, throw them into

the mud. and paint them all over, and then deposit them in a bag lying upon the hard. She was about to leave the place laden with as many painted coals as her strength would sustain, when Grimstone stopped her, and said she must come along with him. She immediately threw down her bag of stable made an attempt to stop her, and she hugged him closely, and dragged him into a mud bank. They rolled over each other, and the old woman appeared to consider it as glorious fun ; but it was nearly death to the man, who came out of the mud quite exhausted, and in the most pitiable condition that can well be imagined. Kate Macarthy buried herself in the mud up to her chin and Grimstone and two other officers, fearing that they should meet the same fate as their companion, whose clothes were completely spoiled, left her there until the tide rising, compelled her to come ashore. She then surrendered to the police, and asked them what they thought of a mud-lark. Grimstone said that the depredations of the old woman were very serious to the coal-merchants. and that she made four or five trips per day, and prisoner, on being called upon for her defence, said she found all the " coals" in the mud, except one lump, which a coal-porter whipped out of his sack and that she was an honest mud-lark. This placard certainly created a great advanced to nominate Mr. Cosper; and Mr. John because every male inhabitant of England is liable Tories." This placed certainly created a great sensation, and was the only one which elicited a cheer on its appearance. On the same evening, a meeting of the friends of Dr. Bewring was held in the Temperance Hall, at which he was present, and the Lews of O'Connor's liberation afforded matter for congratulation, three cheers being given by the broad cloin for "the liberation of the Chartist prisoners!" BRIGHTON .- The nomination for members to represent this place in the Hense of Commons, took place on Wednesday last, June 30th, on the hustings erected near the Town Hall, and was attended by a larger number of persons that ever were present since Brighton has been made a borough, and great excitement was evinced by the appearance of a Chartist candidate on the hustings. The processions were of the usual character, such as are ordinarily seen at elections; bands of music, flags, drunken men, &c., were the order of the day, with the exception of the Chartist procession ; this was indeed a solemn procession ; all was calm and quiet; they well knew the importance of the business for which they had met together, and their procession needed no music to urge them on; their banners were of while. With one exception, that was a splendid blue flag, trimmed with white, the motto's on which were written in gold, "Union is Strength," on the reverse, "The Sovereignty of the People." Another splendid white flag bore in large silver letters the motto of "The People's Charter." On others were inscribed "Universal Suffrige,"— "Brocker and the Charter,"—"Brocker and the Repeal of the New Poor Law,"—"Brocker and the Separation of Church and State." Another fing had the motto of " Frost, Williams, and Jones;" one had on its flag staff the cap of liberty and the tricoloured cockade ; with these flags in their procession, the Chartists made their way through the town to the place of meeting, and on their arrival they found it completely blocked up by their opponents; but they were received with lond shouts of applanse; the people made a lane, and the Chartists marched through and took up their place in front of the hustings, which they kept till the meeting was over, being flanked on one side by the Tories, and on the other by the Whigs; and though the rain poured, at times, in torrents, the gallant band withstood the pelting of the pitiless storm, unassailed by either party, though the Whigs had a go m at the Tories and beat them, destroying three of their orange flags, and more mischief would have ensued, had it not been for the interference of the police, for both parties had a set of hired drunken bullies to anney every one who belonged not to their party; the Lomination having taken place, the Chartist candidate, C. Brooker, Esq., being proposed by Mr. Woolward, and seconded by Mr. Flowers, a show of hands was taken, and declared to be in favour of the two Whig candidates, though, next to Captain Pechell, every one most unhesitatingly agreed that Mr. Brooker was the next man; not so with the Returning Officer, he cannot conntenance a Chartist, and so he gave it in against him, but Mr. Wigney declared himself that HE knew not which held a majority. Mr. Brocker or him. As for the Tory, Sr A. Dairymple, he is so detested, so spurned by all partie in Brighton, except his own, that out of eight or ten thousand people, no more than one hundred hands were held up for him. His conduct on Mr. Duncombe's motion has so disgusted every hones: minded man in Brighton, that no one is heard to give an expression of kind feeling for his welfare. When it is known that he was in the House THE WHOLE OF THE TIME Mr. Duncoinbe's motion for the release of the prisoners was under discussion, and though sont into Parliament by the Radicals of Brighton, he had not the honesty, the manliness, or courage, to give them one vote in resurn, the consequence was, the Chartists of Brighton left him and his party to the fate they deserve from men of sound principles, and he is no longer Member for Brighton, two Whigs being returned by overwheiming majorities. This election has not been without its effect. Captain Peehell has promised, before the assembled people, to vote for the immediate repeal of the Poor Law Amendment Bill. Mr. Wigney has promised to vote for the immediate release of Frost, Williams, and Jones; and we do trust that the forthcoming Parliament will be inundated with petitions from every town, village, and hamlet, for the recall of those unjustly exiled patrious. It is worthy of notice that the Char: tist candidate and his proposer and seconder were the only parties heard, with silence, and the immense multitude, hired men and all, rapturously cheered every sentiment they uttered. The nomination of the candidates was as complete a Chartist meeting as ever we saw. Mr. Brocker, at the close of the poll, said his object had been achieved, viz : the vindication of the principles contained in the People's Charter; and when thetime gain came, they would find him pursuing the same course of action ; believing as he did that the prosperity and happiness of the country would be permanently obtained, through the establishment of the principles he advocated. No expence whatever was Mr. Brooker put to, in Letting poll clerks to attend the different booths : those were supplied from the ranks of the Chartists, who voluntarily gave their services on this occasion. EDINBURGH.- (Abridged from the Edinburgh Observer.)-Thursday, the election for the city was proceeded with, in presence of a large concourse of spectators, who manifested throughout the most perfect good humour. Pithy remarks and commentaries, on particular observations, were occasionally made, but not a single expression which could be designated offensive reached our ears; and though the speakers were more than once interrupted, there was less ground of complaint on this account than on almost any previous similar occasion. At twelve e'clock, Mr. Macauley, Mr. Gibson Craig, and their friends, among whom, besides the members of the aggregate committee, we observed the Lord Provost, Bailie Thom, of Leith, Bailie M'Donald, of Musselburgh, Mr. Veitch, of Woodside, and others, appeared on the hustings. General De Lacy Evans, (Whigs.) and Captain Rous, (Conservative.) Leader offered himself as the advocate of cheap bread, and that more substantial measure—the Suffrage ! and the Ballot to protect it. General Evans would not go a step beyond "free trade," (?) whilst Captain Rous, who, to use his own words, "offered himself at the eleventh hour," and had not one single meeting ! took his stand against the infernal New Poor Law, and the Window Duties. On the day of the poll, Wednesday last, the Gallant Capt. was at the head of the list, Leader second, and Evans in a most woeful minority; consequently Leader and Rous were declared duly elected, and 'free trade.'' A portion of the Whig press is quite in a quandary about Captain Rous's election, and protest that it is all owing to the wicked alliance the Chartists have entered into with the Tories.

The fastenings were 11, Masbro'. let loose, but from some cause or other, instead of the boat sliding gently down into the water, she suddenly upset, amid the screams of the unfortunate beings on board. In a moment the whole body of people on the deck were precipitated into the water, many of them falling beneath the v-ssel.

The consternation and alarm, which at once took possession of the spectators, may be conceived-to describe it is impossible. For a moment, every one seemed panic-struck; all were powerless, paralysed, and stationary. The lull was but the presage of a storm of wail and woe-of consternation and dismay. The scene, from one of gladness, was suddenly converted to one of lamentation. Women were running in every direction, attering wild-cries for their husbands, who they had reason to suppose were on board; brothers and sisters were anxiously inquiring after the relations they had missed, but for a moment; and parents were running about distracted after their missing children. The terror and grief of the parents of those known to be on board (for they were chiefly boys) can more easily be ima-gined than described. Here and there might be seen almost heart-broken relatives eagerly looking for their lost ones, and occasionally a countenance beaming with joy, when they had succeeded in finding their children, whom they anticipated were among the sufferers.

The first alarm. however, soon subsided, and to the panic succeeded the most energetic measures in aid of the sufferers. Each side of the Canal was crowded with hundreds of persons anxions to render every assistance in their power. Mr. Chambers, the builder of the boat, was among the most conspicuous in directing the exertions of the vast multitude who were trying to right the boat. As soon as it was possible, anchors and other implements were fastened to her side, in four or five different parts, and several horses, and some hundreds of men began to pull at the ropes, which had the effect of raising the boat a little more than a foot ; but the fastenings being only attached to the thin wood-work which runs along the edge of the vessel they all gave way. In consequence of the movement of the vessel, however, seven or eight of the sufferers were dragged to the surface. Scores of persons now rushed to the water's-edge, anxious to catch a glimpse of the sufferers as they were removed. Surgical aid, and the most efficient means, were at once applied to endeavour to restore animation, and to the medical gentlemen of Rotherham great praise is certainly due. Effort after effort was then made to right the vessel. Each time, as she was partially lifted up, the bodies of the unfortunate sufferers kept floating from beneath ; and when it was set right, eight or ten bodies were taken out in the space of as many minutes. Every moment the extent of the calamity became more awful, and as each corpse was taken to the tenement which the living body had so lately inhabited, another tale of heart-rending distress was addded to those which had preceded it. Every movement, and every unsuccessful attempt to turn the vessel to her right position, only served to heighten the agonising feelings of those who had missing friends; and it was not until about five o'clock that the men on the top of the boat succeeded in gaining a firmer hold on a strong portion of the woodwork, and by great perseverance and hard labour they at last effected their object, and the boat was righted. The most awful sight of all was then presented ; body after body was drawn to the surface, and conveyed either to their homes or to some other place until they were owned by their friends. Great praise is due to an individual, whose name we could not learn, for his intrepid conduct in assisting to save others, after he had extricated himself from a watery grave.
