TO THE IMPERIAL CHARTISTS.

My DEAR FRIENDS, -Since I last addressed you. I have attended meetings at Derby, Belper, and the Potteries. I spoke in the theatre at Derby, and my party say that my speech has done them a great deal of good; that more than pays me. We had a very glorious procession at Belper, which paraded the whole town, and had a triumphant meeting in the Market-place at three o'clock, and again at half. past eight, when in that small village near 6,000 persons stood the thunder and the rain, and cheered me on in my course. They are fine fellows in this lovely spot; a spot intended by Nature for man's peaceful residence.

I left Belper in an open carriage after three friend from Staffordshire accompanied me. I could kill a crow flying with a stone.

Chartists, about 300—God bless them—with their subjugating passions and evil propensities to the con-band, each woman bearing a wand. They intended troul of reason. Not because it would vitiate public treated the various points of the People's Charter, and Mr. Beedham preached at Great Glenoming. to have marched me thus about eleven miles, but epinion,—but because it would purify it as the fitting showed that the absence of any one would destroy the at Oadby in the afternoon, and Wigstown at night. On cut it down to seven in consequence of the rain.

for London, for three days' rest.

To-morrow, I go to Nottingham, and from my ask before the people WHO PAID ME? Now ask before the people WHO PAID ME! Now afficting the many who create all the wealth. The the satisfaction Mr. Bairstow had given, that a general with the President of America, proving to the meeting people in their wisdom ask upon whose side is the request was made to him to favour us with another that the more they paid to support royalty the more benefactors!

Had Saturday been a fine day all Staffordshire would have been "a-stir;" but as the people of many towns through which the procession was to have passed were disappointed, I have promised to visit upon it. them again during their holiday in summer, and I will do it. And I will go to Coalbrook Dale upon blood; we are called destroyers, yet have millions of sympathy and the feelings of those whom he addressed that there was not one in that meeting that did their first holiday, as I learn that much good may borne two winters and as many summers of heart-treated. At the conclusion of a long and spirited leccame there to promote union and good feeling amongst OLDHAM.—Mr. Storer, of Ashton, deliv be expected there. In fact I will work th my bones but I will have the Charter.

Circular, and then you will learn what I am working for. Hurrah for Sturge and Nottingham, or for the Devil, if he supports the Charter!

> Ever your faithful friend, FEARGUS O'CONNOR.

My countrymen, there are three stages through which a great movement must pass:-Firstly, the creation of public opinion; secondly, the organization of public opinion; and thirdly, the direction of public opinion. In order to insure the success of these required undertakings I have established a free press in this country, for in the midst of political confusion I look to the press as the means by which order is to be produced from chaos. By its means I have been enabled to lay the prevailing opinion of the people once in every week before the people. #### IRELAND. (Private Correspondence.)

There have been made, during the past week, very energetic efforts (considering his advanced age) on the part of Mr. Daniel O'Connell, to wake the genius of Repeal agitation in Ireland; which, since the astounding fact that all the money, ten thousand excellent good pounds sterling poured into the coffers of the Corn Exchange, had dwindled unaccountably down to some £200 was published to the world, had betaken itself to the deep sleep of apathy and the dark dream of despair. The meetings had become merely nominal; and though O'Neill, Daunt, the Rev. Mr. Groves, and Tom Ray went through the nothing to boast of.

In this crisis an effort was indispensible, and most energetic address to an attentive audience, and despatches were forwarded to the father of the movement, explaining to him the ricketty state of his MANCHESTER.—The fustian-cutters of this town he had committed it could answer for was its existence till he arrived. Surely this is the last kick. The Lord Mayor told his dupes that he did not immediately say it himself, but some very smart and trust-worthy persons had, that there were 1,500,000 forged signatures to the Chartist petition, and that though it was a very allowable thing to break men's heads at an election in Cork for exercising the franchise as they wished, yet to write another man's name even with his own consent, on a petition sheet, was an offence peared to be well pleased with Mr. Philp's exposition purpose, to Mr. J. This body met at their room, well, and had wrought with him on the subject of the promising opponent of the inhuman New Poor Law; and as such was well entitled to the sympathy and respect of the working classes. Under those circumstances, he hoped the Council would consider the propriety of raising a subscription to aid the fund, which his (Mr. Oastler's) friends was now raising for his benefit. The Chairman thought that Mr. Oastler, was well entitled to the sympathy and support of the working classes, for he had invariably been their able and zealous advocate. Mr. Bowman then moved, and Mr. T. Dawson seconded the motion, which was carried unanimously-"That one week's subscriptions be given to Mr. R. Oastler; and that the

Secretary be instructed to write to the adjacent places in his behalf." MOTHERS.

ON MOTHERS have depended in all ages the strength and well-being of Empires. Every well regulated state has possessed laws directly subversive of all that might injure the development of mind, retard the improvement of morals, or been destructive to the physical beauty of the female form. This feature in good government was not peculiar merely to the independant States of ancient Greece, but stands out in bold relief upon the pages the free, and best qualified of all others to give laws to the world. How necessary this was to their success or to the success of any great empire remains to be considered; and the downfall of each is without doubt traceable to the indifference and neglect with which the rights of their women have been treated. On this subject one of the most powerful writers of the day has the following:—"The social influence of woman will appear more obvious, if we notice a little more in detail the circumstances over which she exercises a direct and almost exclusive control in the training and education of the individuals of which society is composed. In the first place may be noticed her great influence over the physical well-being and happiness of man. It is from the mother that the physical constitution of the human being is chiefly derived, and it more generally par-takes of her peculiarities of bodily and mental endowment than of the other parent. The healthy structure of the child's frame, it need scarcely be said, depends for the most part on the mother. And of how great importance is health to the human being! Is it not the basis of all moral and mental development, and absolutely indispensable to the enjoyment of happiness, either of mind or of body! Next in value to health of mind, is health of body. Good health is happiness and success, as ill health is misery and defeat in the great strugglo of life. The one is the most terrible bequeathment which a parent can give to a child; the other is an inheritance above all price or purchase, and without which life can never be enjoyed as it ought to be." How necessary then is it that mothers should not only study their health but be made acquainted with a safe, cheap, and infallible remedy for the numerous disorders incident to the human frame. As a pro-Parr's Life Pills stand unparalleled in the history among the aristocracy have been cured by their use when all other prescriptions have failed. "Gentlemen,-I am happy to inform you that we are daily hearing accounts of the good effects of PARR'S LIFE PILLS: to enumerate the cases would be a task too formidable for me, and which has prevented my writing to inform you before, as I can hardly tell where to begin. One man said he wanted a box of Life Pills, for Life Pills they were to him, they had done him so much good, in relieving him of an obstinate cough and asthma. "Another said they were worth their weight in gold! as he was not like the same man since he had

Extract of a Letter from Mr. William Hick, Northern Star Office, Leeds.

" Leeds, Feb. 22, 1842. "Gentlemen,—Your pills are really doing immense good in Leeds; to particularize cases would be use less, and would occupy too great a space, suffice it to say that one individual who had been long confined to his bed, under the care of a doctor, and distressing debilities arising from a secret indulgence propped up with pillows, has been completely restored by taking a few boxes. The pills have been particularly useful to married women afflicted with head ache and general debility, as also to some afflicted with every kind of disorder; and it is worthy of remark, that many talented individuals who have been accustomed to rail at all advertised remedies now frankly confess to me that Parr's Life Pills M really a good medicine, and worthy of general adop

FATAL ACCIDENT ON THE NORTH UNION RAILWAY. -On Wednesday morning, the London up-mailtrain from the north, on its arrival within a distance of two hundred yards from the Parkside station, passed over the body of Thomas Griffith, a barge-man. James Blundell, the driver of the engine, on finding that he had met with some obstruction on the way, stopped the engine as speedily as the downward inclination of the line at that particular part would admit, but not till the whole train had passed over the body of the deceased. On examination, it was discovered that the deceased had been dead some hours, as the body was cold and stiff, and bore evident marks of more than one train having passed over it. The lower extremities were nearly severed from the trunk, and were only attached by a small ligature. The deceased was a married man, about forty years of age, and a native of Tarvin, in Cheshire. EXTRAORDINARY SUICIDE. On Thursday night, as the Queen Victoria, contract mail steamer, was on her passage from Kingstown to Liverpool, a gentleman who had given the name of Johnson, but whose real name was Bennett, of and from Manchester, at ten minutes to eleven o'clock, when nearly off Holy-head, jumped overboard. A life-preserver was at the instant cut away, and though the vessel was brought to as soon as practicable, and a boat lowered with four hauds, in the hope of rescuing the unfortunate man, no trace of him could be seen. The first mate was not far from the deceased at the moment, and he did not evince any previous symptoms of abstraction; he took out his watch and guard-chain, which, with his purse, he left under the seat where he had been sitting. It appears that he left Manchester on Wednesday, crossed the channel that night in the Queen Victoria, and that he had left on the table at home a note for his brother announcing his desperate intention. The water was quite smooth. and the vessel going not less than eleven knots. The deceased was twenty-four years of age five feet ten inches high, and bore an excellent and amiable character.

When man suffers from wrong and oppression his mind is doubly open to conviction of the divine principles of truth and justice. Look to Dadley and the neighbourhood; see what Candy and Cook have done there during the late outbreaks. The nailors, ironworkers, and colliers of that vast district, embracing the whole of South Staffordshire, and extending across Shropshire, nearly to Wales, are coming out in thousands for the Charter. That district, as I have before stated to the Executive, must demand our first care and attention. Then there is the great colliery district ground Wrexham, Mold, and Hawarden, in Flint; the men employed in them are at present suffering great oppression; we must be there; a talented lecturer would bring out the whole district in a few weeks; and then hurrah for the propagande in Denbigh and Merioneth; Snowdon and Pliulimmon would soon echo back to the Wr. kin, the shout for the Charter! "Hurriers," says Mr. Scriven, in his report, page 65, "are children who draw loaded corves or waggons, weighing from two to five hundred weight, mounted upon four cast iron wheels, of five inches diameter, without rails, from the headings to the main gates. In these seams this is done upon their hands and feet. having frequently no greater height from the floor to the ragged roof than sixteen, eighteen, or twenty inches. To accemplish their labour the more easily, they buckle round their naked persons a broad leather srtap, to which is attached in front a ring, and about four feet of chain, terminating in a hook."

In this horrible employment children, from five years old and upwards are engaged; and thus, at the very time of life when the capabilities of the On that occasion I will undertake to prove that distingtion of felting on a week selected a few cases from the report, bearing human frame to bear fatigue, are next to nothing and prepare the structure for the endurance of future toil, every means is brought into operation by which weakness and disease can be engendered. and premature decay accelerated.

"I found however, that the case was hopeless there were so few, either of colliers or their children who had even received the first rudiments of education that it was impossible to institute a comparison. The evidence, therefore, on this point is not so perfect as I could wish, but I think it will be found to go far to establish the position that want of education is accompanied by a degraded moral sense, gross and brutalised habits, depravity, and crime."

If this were true it would only prove that our advocates for conversion might find work enough to engage all their zeal, talent. and contributions in the Principality, and need not even cross the Channel to discover fitting objects for the exercise of their Christian benevolence.

But how stands the fact? Why just thus. That in illuminated England matters are as bad or worse than in benighted Wales. In Mr. Scarren's Report every Christian mind; I can most conscientiously say on the Collieries in Halifax, we find the following:

These are the results of instruction in Sabbath Schools, the teachers and conductors of which would deem it a horrid crime to teach writing and other branches of practical education on the Lord's We give the following as a specimen of the value

which is attached to the importance of Sunday school instruction by at least one of our "respect-"Mr. James Wilcox, a proprietor of mines, states;

You have expressed some surprise at Thomas Mitchell not having heard of God. I judge (he continues) that there are very few colliers hereabout that have. We wish we knew the precise school in Halifax in which this boy was taught, or, rather, was not taught; for not a particle of useful knowledge appears to have been imparted. We would certainly give it all the infamous notoriety the case so richly merits. The truth is, this most important document must force conviction upon all who are not determined to remain unconvinced in spite of the most incontrovertible evidence that a system of the most brutalising character and diabolical cruelty is at this moment in actual operation in the coal mines of England, Wales, and Scotland, a system to which the state of slavery in the West Indies was a Paradise, and which will only bear comparison with the most demoniac practices of ancient times. Nay, we are prepared to prove that in juxaposition with the atrocieties now practiced and the wholesale, physical, mental, and moral slaughter daily perpetrated, in the mills, factories, and mines of this country, the darkest deeds of antiquity are white as snow. We are told of the infanticide sanctioned by the laws of Sparta. What was that in atrociety in comparison with the binding pauper children by Poor Law Guardians for a period of sixteen years, to labour in those dens of darkness, misery, and vice, more hellish in their character than we can conceive even of hell itself! We are reminded of the massacre of the infants of Bethlehem. Why that was mercy itself compared with the taking children, aye, and female children too, at three and four years old, and subjecting them to the labours and brutal treatment which have been brought to light by this inquiry! We may be referred to the human sacrifices offered up in ancient Greece and Rome, or to the demon worship of the Jews in causing their sons and their daughters to pass through the fire unto Moloch. We admit the horrible nature of these sacrifices and idolatrous rites, but they have at least this extenuation, that they were performed in a time of gross ignorance and were in perfect accordance with the acknowledged spirit of the age. Besides in these cases the body only was affected; but here we have a system opposed to every precept of Christianity, abhorrent alike to body, mind, and spirit. These helpless vicof Idolatry, as were any of the ancient sacrifices. Mammon is the god of Britain. Mammon is exalted on our altars, and is enshrined within our palaces. Decrepid age, and helpless infancy, the of the intellect, and the gushings of affection, must alike be sacrificed; and it appears as if no one dared to raise the standard against its insatiable thirst of gain, or venture to interrupt the further ravages of its uncontrolled anthority. We are glad to find that the press of every shade of politics is beginning to take up this question. This is as it should be. It is no question of politics, it is far removed beyond and above the narrow range of party bickering; it is a great question of social and moral

We want to know whether the pulpit will follow the example of the press; whether the priesthood, who were first and foremost in denouncing and putting an end to negro slavery, will come forward to the rescue of the white slaves of England? We know they ought, and we know they must, or be prepared to encounter the curse of the Almighty, and the detestation and abhorrence of every honest man. We might ask, why an interference on their part has not been made long since? We might inquire how they could live, as thousands of them do, in the coal districts, and witness the horrible depravity and profound ignorance everywhere so apparent, and not institute a searching inquiry in order to provide a remedy? We can readily conceive that a large portion of the ignorance, vice, and wretchedness, which the commission has brought to light, was unknown even in the places where it existed in the greatest abundance; but we cannot permit the plea of ignorance to be carried so far. It is impessible that magistrates, proprietors of mines, and especially ministers of religion living upon the spot, would be altogether uninformed as to what was going on. And yet nothing has been done-and why? We fear the proprietors have closed their eyes to the horrible evils of the system, because it was to them profitable; the magistrates have winked at it, lest an interference on their part should give offence to some wealthy neighbour; and the ministers of religion have connived at it because ample collections are required to carry out their designs, and to enable them to appear "respectable." The fleece must be secured, no matter what becomes of the flock; and the splendid temple must arise, though every stone should be purchased with the price of blood. Whatever may have been the case, ignorance now exists no longer. The evidence is ample, and it is undeniable. We now, therefore, have a right to ask for practical proof, that all the denunciations against slavery, that all the mournings over the wrongs of Africa, that all the professed anxiety to convert the heathen, was not, and is not, mere cant and hypocrisy. If there is either truth or consistency in the religious public, now is the time to show it. A system has been brought to light, as now actually existing, which is fraught with the most fearful, and productive of the most tremendous, circumstances, temporal and eternal, to all concerned in it. The same power which broke the chains of slavery can rescue the children of Britain from present thraldom and future ruin. The same zeal and animation as animated the country in 1833-4, is required now, and the same result would inevitably The terms upon which the Plate will be issued are follow a similar exhibition of moral determination.

THE FORTHCOMING NOTTINGHAM ELECTION.

THE eyes of the whole country are now directed to the approaching contest for the deserted seat at Nottingham; and, as no doubt every species of corruption will be resorted to, we think it right to give to both electors and non-electors a few words of advice and caution. The base factions know that many of the electors are poor—that a sovereign or two would be to them a present advantage; and sovereigns will be freely, though not openly perhaps, offered on the coming occasion. Let the electors remember that no man will buy them unless he intends to sell them; and let them count carefully the loss and gain of the experiment. They may gain a paltry trifle, but they will certainly lose not only the chance of benefiting their country. but they will also be, as far as in them lies, instrumental in perpetuating their own misery and wretchedness. What has brought Nottingham and every other town in the kingdom to the state of upparalleled distress under which they are now suffering? Class legislation. And class legislation has been mainly produced by the readiness with which electors have received the reward of iniquity from the base betrayers of their country. Let them reflect well on these things, and they will infallibly PROFITS TO THE EXECUTIVE, from Ruffy Ridley's come to the conclusion that they will be more benefitted by an honest non-buying Representative. than by a Candidate who wishes to buy them with a sovereign or two, in order to continue the system; F .- We will take his file of the Times at the price he and we trust they will act accordingly.

We hope every friend of freedom will be at his post and manfully perform his duty. Let local committees be instantly appointed, and let the most extensive steps to be taken to hunt out and put to rout, both night and day, all bribery machinery of every kind, that the tricks of the factions may be displayed in open day; and let all to whom a bribe is offered be well assured that the candidate who spends money intends to have it all back with good interest, either by himself, or his relations, or connections. Mr. STURGE stands pledged neither directly, or indirectly, to spend any money beyond the necessary legal expences, and if the other side are watched vigilantly and at all points, the electors will have no where to look, and they will vote right. We would suggest the rigid administration of the bribery oath. The House of Commons will not abolish bribery, and therefore, the steps suggested by the law ought above all things to to every principle of humanity, and destructive be attended to at the present and every future election. The freemen in the boroughs are chiefly tims are as truly offerings consumed upon the altar of the working classes, and if they are promptly shown that nobody will be allowed to give them money, they will do their duty.

To run purity against bribery is like doing nothing. Bribery can be and must be prevented everywhere, if the friends of honour and consistency will but do To this monster Devil, this modern Juggernaut, all their duty. Nottingham gave the fatal blow to the most detestable faction that ever cursed a country; strength of manhood and female beauty, the powers | let it now rear the standard of purity and vigilance, and be first in the glorious battle for a nation's rights and a world's redemption.

# THE NEW EXECUTIVE.

WE again call the attention of the people to this subject. They will find the instructions of the Executive as to the voting, &c. elsewhere, to which we refer them. We would also beg the people generally to read the plan of organisation. Many localites, we perceive, have nominated several difinterest; it demands the exertions of all, and no one can henceforth refuse to aid in the rescue of ferent candidates. This is unaccordant with rule and must be at once corrected. Every sub-Secretary those victims of oppression without incurring the is at liberty to nominate one candidate, but no more. Every locality ought to consider carefully the whole range of public men before them. and instruct their sub-Secretaries accordingly for the nomination. For Heaven's sake, let us have an Executive in which the people—the whole people can have entire confidence. No barking, yelping, stealthy, winding, slimy lookers-out for thirty shillings a week, as a means of becoming or of helping to become "respectable."

DETERMINED to commemorate every great national event connected with the present "movement." Mr. O'CONNOR has entered into arrangements for presenting the Subscribers to the Star with a large and splendid Engraving of the Presen-

tation of THE GREAT NATIONAL PETITION to the House of Commons.

This Plate will be as much superior to the Engravings already given with the Star, as they were to any ever given with any other newspaper. It will be divided, as it were, into three main compartments. The first will represent the Dele-GATES IN CONVENTION ASSEMBLED, previous to starting with the Petition to the House of Commons. The centre and largest compartment will represent the Procession accompanying the Petition to the House, the PETITION itself, the BEARERS of it, and the People, when passing Whitehall, and approaching Palace Yard. The third compartment will represent the PETITION IN THE HOUSE, when "laid on the table;" being a general view of the Interior of the House of Commons, the Bar and the Speaker's Chair being prominent features.

In addition to these main compartments the upper and lower edges of the plate will be divided into sixteen other smaller compartments, each one of which will contain an accurate representation of some great Public Building passed in the route from the Convention Rooms to the Parliament House. Views will thus be given of Temple Bar, St. Clement Dane's Church, Somerset House, Exeter Hall, St. Mary-le-Strand, Trafalgar Square, Northumberland House, Whitehall. Richmond Terrace, The Admiralty, The Horse Guards, Westminster Bridge, The Treasury, Westminster Abbey and St. Margaret's Church, Westminster Hall, and the Exterior of the House of Common.

JOB PLANT, before he began a system of insolent annoyance, should have "taken stock" of his brain pan, to ascertain whether he had sense enough to carry it on. His letter was not directed for Feargus O'Connor; it was directed to the Editor of the Northern Star, though addressed to Fearous O'Connor, inside. We do not publish Feargus O'Connor's "dwelling house to be No. 5, Briggate, &c.;" we usually publish and write what we know to be true; had this been Mr. Plant's practice he would have saved himself the trouble of writing, and us of replying to this letter.

HRISTOPHER WOOD, late of Honley, still continues a prisoner at Rothwell, without any other means of sustenance than the casual aid of parties who are indisposed to see a man starved to death in England for being a Chartist. We trust that the Chartists of the West Riding, and the country generally, will see that the devils who desire his destruction be disappointed. Y. Z.-His communication is an advertisement.

We have every desire to oblige our friends so far as we can do so consistently with public service; but the one thing against which, more than all others, we have set ourselves during our whole political existence has been the publication of sectional souabbles and individual denunciations. While the slightest and most respectfully expressed intimation from us that we did not perfectly approve and feel delighted with everything done and said by some parties has been termed "dictation" and "denunciation," and has been made the pretext for heaping upon us coarse and offensive ribaldry, we have the satisfaction of knowing, and every reader of the Star knows as well, that we never yet denounced any man; and none know better than the yelpers about "dictation" and "denunciation" that we have always deprecated and struggled against it. Notlingham, Leicester, Sheffield, Newcastle, Huddersfield, Birmingham, and London can all bear ample—and some of them have borne sufficiently angry-testimony to this fact. Sir Robert Peel could not consent to the proposition. He had no fear whatever of any injury arising from an importation of fat cattle under the proposed Government duty, and the importation of lean cattle would be a positive advantage to the agriculturalists themselves. Mr. CHARLES BULLER declared that though the tariff was not the greatest free trade measure ever proposed in the House, it would, if carried, be the greatest which this country ever obtained. Though opposed to differential duties, he yet could calm the fears of Major Vivian as to any overwhelming Canadas.

A somewhat desultory debate now arose, shared in by various members, Lord Howick, Sir Robert Peel, Mr. Labouchere, Lord John Russell, and others, in which the inconsistency of the Government was commented on, in applying different principles to the trades in corn and cattle. Amongst the speakers was Lord Sandon, who vindicated the Government, on the ground that foreign corn Mr. TURNER wound up this discussion by depre-

TO THE EDITOR OF THE NORTHERN STAR. SIR,-I have, during the Whitsun holidays, made a

second pilgrimage to Northallerton, for the purpose of seeing a dear brother who is confined in Northallerton House of Correction for a political offence, and who has suffered already two years and nearly three months, under the silent system.

I visited him last on the 26th of December, 1841, and ound him greatly reduced in body; at that time he had been ill a considerable time, but has since enjoyed better health.

I saw him again on Whit-Tuesday. Alas! what a strange alteration; the bloom that used to adorn his manly cheek had nearly all fled. his countenance was pale and sallow, and marked with scorbutic eruptions. I told him he looked much worse than when I last visited him. I asked hew he felt? His answer was, that his constitution was completely broken. He attributed it to his long confinement. But though his constitution is injured, and his health impaired, his love of liberty is still unconquered: his spirit still remains the same, determined to battle with tyranny and oppression to the last moment of his life. He has got nine months and a few days to serve of his time. Something ought to be done for him in order to raise his shattered constitution. He was not sentenced to hard labour, and will in consequence be allowed to find his own provisions, if our Chartist brethren will only enable him to do so. This will cost about eight or nine shillings weekly. The good men and strue of Northallerton and Brompton have it in contemplation to raise a fund for that purpose, if they can be assisted by other Chartists of the kingdom. They instructed their delegate. Mr. Isaac Wilson, to: bring the question before the delegate meeting at Dar-LEEDS .- ANCIENT FORESTERS .- On Monday, a lington, on Sunday, the 21st inst, and to ask them to co-operate in the noble and God-like work of rescuing

They have on many occasions witnessed his zeal and devotion to the Six Points of the Charter. Then arouse, my brave friends, and convince his and our enemies that those who suffer for us shall be supported by us. If you will insert this in your valuable journal, you will much oblige,

Sir, yours, &c. Josh. Brook.

LONDONDERRY.—Another serious riot has been caused here by the Marquis of Donegal's tenantry, associating together for the purpose of putting up stake-nets on the Derry side of the Lough. Accordingly on Wednesday, they drove stakes for a net on that side, near to the mouth of the Fahan, a little below a net which was placed there in the beginning of the season, by the assignees of the lessees of the Irish Society. On Thursday, the fishermen in the employment of the assignees went down the Lough in five or six boats, and pulled up nearly all the stakes which had been planted by the other party; by which party they were stoutly, though unsuccessfully, resisted; and, in the course of the melee, one of the Donegal tenantry, a man of the name of Bradley, with deliberate and ruffianly violence, drove the sharp end of a stake into the eye of a young man, named Jehn Lynch. The wound was so serious that fears were entertained of Lynch's life, and the recovery of eye-sight is despaired of; but by skilful treatment the injured organ will not be utterly deprived of the power panied by, or, as some say, headed by the Mr. Brown, by whom the fishery on the Donegal side, under the claim of the Marquis, has been chiefly conducted, when some of them tauntingly called upon the fishermen in the service of the assignees to take down, if they dared, remained. The constabulary stationed in Derry and Muff (County Donegal) were soon upon the spot, as was also the Mayor, who forcibly pointed out to the meeting the danger they would incur by committing a breach of the peace, and stated his determination to use every means in his power to prevent disturbance. In obedience to his mandate they at length dispersed.

HOUSE OF LORDS.-Friday, May 20.

Their Lordships met to-day, at five o'clock, for the first time since the recess. A message from the Commons brought up several private bills.

Lord Sydney presented a petition from Charles Vere Ferrars Townshend, commonly called Lord Charles Vere Ferrars Townshend, complaining of an individual who called himself the Earl of Leicester, being elected as such to serve in Parliament for the borough of Bodmin, that being the second title of the Marquis of Townshend. The petitioner stated that the parties, the bribers as well as the bribed. individual named was not the issue of the late peer. but that, unless their Lordships took some steps to prevent it, he would assume the title, and take his seat in their Lerdships' House.

The question is one of legitimacy, we believe; and, on the suggestion of Lord Brougham, the petition was referred to a committee of precedents. The LORD CHANCELLOR gave notice that he should move the second reading of the Quarter Sessions Bill on Monday se'nnight.

The Marquis of LONDONDERRY moved that the report of the ecclesiastical commissioners for the year 1841 be laid on the table.

Agreed to. The House then adjourned, shortly before six o'clock, until Monday.

Monday, May 23.

A short conversation arose between Lord Campbell and the Lord Chancellor on the subject of locking up passengers in railway carriages. The Lord Chancellor had himself been locked up that very morning, and had not experienced any inconvenience. Some Bills were read a first time.

HOUSE OF COMMONS, FRIDAY, MAY 20.

The House re-assembled to-day for the first time since the Whitsun recess. The Speaker took the chair shortly before four o'clock. The attendance of members was very limited.

Monday, May 23.

Colonel RUSHBROOKE moved the issue of a new writ for the borough of Ipswich. Mr. WYNN did not mean to oppose the motion, but he called the attention of the House to that part of the Ipswich Election Committee report, which stated that extensive corruption had prevailed at the last election Such a statement should not rest on their records unnoticed; and he recommended inquiry, and, if neces-

sary, prosecution by the Attorney-General of the guilty Sir GEORGE GREY hoped that such an alteration of the law would be made as would prove more effective than any partial or limited inquiry.

After some conversation, Mr. Hume proposed the suspension of the writ for fourteen days, in order to see what was going to be done by Lord John Russell in the way of a general measure to put down bribery and corruption. Lord JOHN RUSSELL considered that both parties

Mr. HUME approved of this suggestion; and after some conversation, Mr. WARD suggested that the case of Southampton should be dealt with in the same way. Mr. WYNN thought that it was a dangerous power for the House to assume in suspending writs one moment longer than was necessary. He gave notice for Thursday of his intention to bring on the motion for

On the motion for going into committee on the Customs Acts (the Tariff) various preliminary matters arose, including a statement from

Mr. CALLAGHAN respecting the present condition and future prospects of the Irish provision trade. He concluded with proposing a resolution, that in removing the prohibition to the importation of any article, there ought not to be charged any duty on the raw material which should not be charged to articles the manufacture thereof; and that so long as living animals be charged able with an equivalent rate, and not removable from warehouse without payment thereof, except for expor-

Mr. GLADSTONE pointed out that the privilege sought for by this resolution would lead to fraud and evasion, and that, with the present competitive state of things, no effective protection could possibly be given to the Irish provision trade.

Mr. LABOUCHERE concurred with Mr. Gladstone, but Mr. E. ROCHE supported the resolution. After some observations from Sir Robert Peel, Lord John Russell, and Sir Robert Ferguson, the motion was

Sir ROBERT PEEL thought that the author of an eight-shilling duty on the importation of foreign corn was hardly entitled to claim the merit of being a friend to the entire freedom of trade. Limiting himself strictly to the proposition before the house, that of the propriety of removing the prohibition on the importation of foreign cattle, he expressed himself grateful for that the chairman should report progress, and ask leave the generous support which he had received from the great body of the agricultural members of the house. even though differing from them on the present occasion-a difference which he hoped would not last beyond the evening. The interests of the community imperatively demanded the change now proposed, and the apprehensions entertained respecting it were perfectly groundless. The quality of the cheap meat sold in Hamburg or other places must be taken into the account in estimating the effect of the competition with British stock; while what had hitherto been made a afforded to the entire agricultural community. He had not yielded to the selicitations of many esteemed friends who had waited on him to ask for increased protection. for his conscientious belief was that a duty of £1 per head was amply sufficient, and he was of opinion that the population of this country was increasing at a rate more alarming and more rapidly than many were aware of. He hoped the House by a large majority would affirm the government proposition. Mr. Morgan J. O'Connell asked who caused the panic alleged to exist? The farmers' friends! If it

had been known at the last general election that the agriculturists were to submit to such a measure as this, the farmers' friends would still have occupied the opposition benches. He regretted that Mr. Gladstone's speech had not been made on the motion for a fixed duty on foreign corn, or even for Mr. Villier's motion, as it would have been conclusive in their favour.-The House became very impatient during Mr. O'Connell's speech.] Lord WORSLEY did not think that the amendment

had been fairly met. Mr. VILLIERS considered that it had been treated with great respect. It was not entitled to any consideration at all, when the state of the country was considered, with a starved and starving population, dying of disease engendered by the want of sufficient food. Yet five hours were consumed in debating Mr. SCOTT (Roxburgh) indignantly repudiated the accusations of Mr. Villiers as a foul calumny.

After some observations from Mr. WARD, Mr. ORMSBY GORE said he had made extensive inquiries, and found that the larger farmers approved of the Government proposition, which he supported on the score of justice to the poorer parts of the country. LECTURE II. CONCLUDED. But the truth is, there are none of us that do as we would be done by, for, if so, should we see such sights, would there be such scenes as appear-as are acted without intermission on this great stare of knaves and fools—in this threatre of the world? We need not ascend or descend into garrets, or cellars, or dog-holes. those charnel houses of the dying and the dead, where plague, pestilence, and famine huddle their victims together; we need not explore prisons, bastiles, or penitentaries; nor need we seek in factories or coal mines, we have only to walk the open streets, at midday, and at every step we take we shall meet objects to convince us that we do not do unto others as we would be done by. I will pass along one of the principal thoroughfares of this mighty metropolis-the capital of England—the emporium of the world—great in wealth, little in worth, magnificent in outward appearance, mean in real character-in a word-London! I see two extremes of wealth and poverty that absointely meet: they not only co-exist, but they commingle; and the wealth is more shameful, more disgusting, more abominable than the poverty; for there is something very unjust, very revolting, very insulting in luxury when it exists—when it parades itself—when it triumphs in the very presence of the necessity which it contrasts with. If such wealth allow of such poverty, the poverty should not allow of the wealth. There is St. Panl's Cathedral-surrounded and almost smothered with shops and warehouses—an emblem of religion, befouled and burthened with the traffic of Mammon: you are shown the Monument; and look at the shipring in the Thames—the carriages in the streets—yes, and I point you to the miserable beings you meet there. See a human creature, a few dirty rags scarcely hide his shrivelled nakedness, his emaciated arms are folded across his skeleton form to give it warmth, he is bent with cramps, he shivers with agues—the keen pangs of hunger giare fiercely in his eyes-his appetite is reduced to that of a very dog-he seeks in the gutters for scraps of refuse—he is full of sores, and shames—why is this? Answer it ye who have the making of the laws, who govern the country, who leave us not a will of our own-answer it, ye lords and bishops, who profess to reverence the very name of God-who tell us that man was created in the likeness of God! Is this the condition in which you would behold the image of Ged? You say that God gave dominion to man over all things—that all things were made for him, and given other as we would be done by. to him. True, my lords and bishops, but such as you have robbed him of all; and we now frequently behold God's image pass along-a pale spectre of repreach to man-perishing with cold and hunger, and with no place of rest, not even a pillow for his drooping, his dying head, except the stony step of the door of seme vaunted charitable institution barred against him. That man is our brother, and is this doing to our brother as we would be should be done to? Is it doing try:as we would be done by ?-for we ought to put ourselves in his place—to identify ourselves with him, to sympathise with him, to succour him-for, as we would not wish to suffer this, we should resolve that neither should one of like nature with ourselves be made to suffer so. How many do we meet doing penance for they hobble along, "God help me, I am starving." Hundreds pass them every minute, hundreds full-fed, fulldressed, and with their pockets full, but they heed not their suffering, perishing brethren. Unsophisticated strangers from the country will stop, will enquire, will wonder, will be softened by pity, will be fired with indignation; but the town passengers are bent on business; on pleasure, on wastefulness, on wantonness, and suffer not their attention to be diverted for a by the heat of a torrid sun-he finds our climate cold, but our hearts are colder; a few tatters of his native costume yet flap in the wind, and tells too plainly, shews too clearly, that he has not been clothed since he left his far, his foreign soil, and came a stranger to a strange land. Do we do unto him as we would be done by, supposing that we were thus destitute in his country? I might go on adducing other instances of individual wretchedness in every variety of formnumbers of deformed, crippled, mutilated objects whom your unseemly letter, I desire to know the names of the during the two years of his confinement most severely we see in public, but who ought to be nowhere seen electors who passed the resolution. but in almshouses, hospitals, or asylums. But I will not weary your patience or render your compassion callous by a vain recital of the wants and woes which are caused by tyrants, who punish us if we pity and seek to relieve them. I will merely cite a few domestic cases, which nature itself prompts us to relieve—such as of mothers carrying their infants through the streets, the way they should go; but in a way which they example of such? would fain not go-in a way which they are forced to go. Ah, necessity is a vile thing, and makes villains of and not grow up to become the victims of the suffering life of sin that awaits them. Many fathers wish their sons had not been born to be a burthen on them which they cannot support. How many little sinless ones innocently wonder why they are made to suffer so much cold and hunger, and with the voice of first nature implore their parents to get them food from the abundance which they see every where around them? How many parents commit suicide, or destroy their children, or sit in sullen impotency, unaffected by the cries of want which they cannot relieve? How many groan in spirit under the grinding despotism of the present cursed system-a system made by and for the benefit of the rich, who do not feel any of these things, and therefore, care for none of them? It is very well for them, sitting at ease in their possessions, and saying to themselves, "Soul, thou hast much goods laid up for many years, eat, drink, and be merry,"-it is very well for them. not pressed by poverty, not tempted by sin-for them to exclaim against the vices of the poor; but let the rich do as they would be done by, and the vices, the ignorance, they so eloquently denounce, would cease, would be known no more. Many honest men are balancing the horrors of starvation on the one hand with the degradation of dishonesty on the other, and in hopeless helplessness wish for some swift disease to come and carry them off. Many put themselves into ciation. the way of death; many plunge into it from a life that has robbed death of all its terrors, a life of pain and frantic woe. The verdict on such victims is self murder! A lie-a cruel lie; for it is the system that murders them, and none but the supporters of such a system—the supported by it—would dare to pronounce such a sentence on the clay-cold corpse that sleeps

The penitentiaries open not to the voice of penitence, but te the voice of interest, and when open there are painful penances to be performed within; no home and no house will take them back to virtue; it is too late, and the poor victims are constrained to sell themselves, body and soul, to disease and despair. These are our sisters, and is this the way we would have our sisters

done by? Parliament instituted to inquire into and to correct prison-of paupers in workhouses-of children in actories and mines, and all this is well worth inquiring of the outcasts in the streets. Oh, what a tale each one tion. could tell; but a tale that our Government would not listen to, because in it they would hear their own condemnation. But let us get the Charter, and all these evils will be inquired into and remedied-we must not expect it till then. Therefore I call on all who have fathers, who have mothers, who have brothers. who have sisters-I call upon all who are themselves fathers, mothers, brothers, er sisters -upon all who are men, who have the common feelings of humanity-I call upon you for the sake of others, for the sake of yourselves-for the sake of our fellow-creatures, not only those who wear the human form, but also for the sake of the poor dumb animals that toil in torture, that are driven to death by hard taskmasters for whom they work till they die, running till they drop with bursten hearts; I call on you for the sake of every living thing, for everything that has life, may rue life under the present system; for life, the blessing of God, is turned into a curse by man-I call on all, for the sake of all, to strive for the Charter. that these things may pass away, and a newer, a better order of things may come in their stead.

And now I conclude-conclude as I began with the text-it is the first and the last, and if there had been no other rule given in the Bible than this golden one, it were enough; it is a Bible in itself; a precept most worthy to be given by God to man, for if we followed it-if we strictly exemplified it, we should have all happiness that our nature is capable of, we should be what God intended us to be, we should all be happy here and happy hereafter, if only we did unto each

AN ADDRESS ADOPTED BY THE DELEGATES ASSEMBLED AT DARLINGTON, ON SUN-DAY, MAY 22, 1842.

BROTHER CHARTISTS AND WORKING MEN.-We are now arrived at a crisis in the history of our country which will in after ages characterize us as a nation of tame, submitting slaves, or a society of men determined to exhaust every means within our power to shake off the yoke of slavery. We have now gained a position which depends on our own exertions to maintain. We have proved to the world the possibility of instituting a national organization of the working classes. BILLINGSHURST .- STRANGE DELUSION AND CON-SUMMATE CRUELTY.—A womun named Barns, the wife of a labouring man residing at New Pound Common, in the parish of Wisborough-green, having been ill for a long time, and being unable to account for her lengthened indisposition, supposed, as did her neighbours also, that she was bewitched, and looking about them for the cause of the evil, their suspicions fell on a woman of about forty years of age, said to be a very decent, inoffensive creature; this idea schemes were put into operation to destroy her influence, but all had failed up to the latter end of last April, when by some means they became possessed with the notion that if they got some pigeons and burned them alive, keeping every part of the room stopped up close, and not speaking while the operation was going on, they would effecas close as possible : some of the poor pigeons they opened at the breast in order that the fire might burn their hearts while alive. How many were burned the writer cannot say, but he heard a neighbour state that he himself burned four, and he thought they should have destroyed the witch if the house had been closer. It is supposed by the neighbours that from a dozen to sixteen pigeons were destroyed in this cruel manner.-

EXTRAORDINARY TRIAL.—The following singular case, which, we believe, is the first of the kind that has ever been tried in a Court of Justice, either in this country or America, has been heard before Judges Baldwin and Randall, in the United States Circuit Court, at Philadelphia. In turning round, the horse knocked a woman down into the gutter, and drew the cart over her, before he could be stopped. Accidently, however, she had a thick cloak on, which saved her from a broken limb. The horse seemed quite stunned with striking his head with such force, and to that may be attributed his quietness afterwards. Never did we see or hear of an accident evidently so appalling, anding so well. The course of the cart lay amongst hundreas of people, thickly collected, and yet only one was hurt. Had he turned into Middle-pavement no doubt many lives would have been lost. The cart had on it James Martin, farmer, Burton.—Nottingham Review.

DISTRESSING OCCURRENCE.—Two LIVES LOST.— CHATHAM, MAY 19 .- This day a Jury assembled at the Duncan's Head public house, New Road, Chattually destroy the witch's power. The first witness examined was Robert Taylor, brother of the deceased, William Taylor, He stated that his brother was a bricklayer, and had been employed in making a cesspool adjoining to another cesspool, on the premises of Mr. Farmer, Best-street. The new cesspool was nineteen feet deep, and the old one nine feet. A stage was erected in the new one, about nine feet below the surface of the earth. On Monday night the deceased, Wm. Taylor and Thomas Turner, went down into the hole and made an aperture, and the slough run through. Witness remained above. After which witness's brother, with a crowbar, enlarged the hole, and the stuff run out faster; very soon afterwards witness heard his brother cry out, "Dear me, I can hardly breathe," when almost in an instant he fell into the soil. Witness called to Turner, and said, " For God's sake, put the rope down and fetch him up." Turner did so ; he, however, fell in also. Mr. Dunstall, who was then on the stage, sang out for the rope, and before it could be brought up he fell and fainted. He did not fall into the soil. Witness and a person named Farmer pulled out Mr. Dunstall. Mr. Dunstall was the master. Every precaution was taken: a candle was kept burning down in the hold; they therefore considered there was no danger. Assistance was procured. Witness's brother and Turner were got out, but they were quite dead. Witness can speak positively that both the men understood their work. Deceased's brother is thirtyfive years of age, and Turner thirty-four. Mr. Benjamin Tribe, surgeon, said he was sent for on Monday evening, a quarter before ten o'clock. Saw the deceased. Not one of the turnouts has returned to the employment of public meetings for their adoption.

Simultaneous meetings throughout the vigour and purpose holding and the Chartists, hung their heads, and grew pale, and sneaked off, amid Chartist cheers that rent the Messrs. J. Wood and Co., which speaks volumes for the justice of the cause in which they are engaged, while a large number of the turn-outs have found employment at those manufacturers who are disposed to give us a helping hand, a course we strongly recommend to those who are inclined to benefit the trade upon which we depend for support. As the strike is likely to continue for an indefinite period, we hope our friends will make renewed exertions on behalf of the turn-outs, as we are determined to strain every nerve rather than surrender one iota of the just cause in which we are engaged, for the manufacturers have repeatedly informed us that whatever wages the strike is settled at, the same wages will be the standard throughout the West Riding." If Messrs. J. Wood and Co. are disposed to give the same wages as even half a tithe of the places in our Association have nominated persons to serve on the Executive.
