Malton, Jan. 30, 1843.

Gentlemen,-Though it is but a very short time since I last wrote for a supply of Parr's Life Pills, I find that owing to an astonishing increase in the sale of them, I am again compelled to request you to send me twenty dozen of the small, as also a supply of the large size. I should wish you to forward them by railway to York, thence by carrier, as carly as possible, as I am afraid my present stock will be exhausted before they reach me. I enclose you the case of a person who resides in Malton, and whose testimony may be relied upon as being strictly correct. This is but one case selected from an almost incredible number of others, which have come under my notice, in which cures have been effected by the use of Parr's Life Pills. Many highly respectable persons in this neighbourhood, who previous to the introduction of Parr's Life Pills had a decided dislika to Patent Medicines, are now thankful that they are able to add their testimonials to the beneficial effects of these pills. By forwarding me, without delay, the quantity of pills as ordered above, you will oblige,

Gentlemen, yours, respectfully, J. WRANGHAM.

Gentlemen,-When I consider the very great relief 1 have experienced from the use of Parr's Life Pills, I think it not only to be my duty to you but to rvery one who may be suffering from similar complaints with which I have been afflicted, to make my astonishing case as public as possible. For a long time past I have been greatly troubled with a most sovere nervous complaint, giddiness, and swimming in the head, which increased to such a degree that at times I was compelled to leave off from my work. being unable to bear the least fatigue or excitement. At the suggestion of many of my friends. I was induced to try various medicines, but found that my complaint instead of diminishing, was daily growing worse. Having fortunately heard of the beneficial offects of Parr's Life Pills, I resolved to give them a fair trial, though I must confess with but little hopes of deriving benefit from them, after having tried so many other medicines without success; I immedi-ately purchased a small sized box of Mr. Wrangham, chemist, the only agent for the sale of them in Malton, and fortunate indeed has it been for me that I did so, for though I have just finished taking this one box, I find myself so far relieved that instead of daily, nay hourly, suffering from that dreadful complaint, nervousness, with its attendant miseries. I am restored to my former good health : my nerves are strong-the giddiness and swimming in my head are and occasionally to PHILADELPHIA, BOSTON, BALTIMORE, and NEW ORLEANS. larly to my trade. The proceedings of many of the dissenting bodies may well be referred to on the subject of Organization, and more especially those of the Wesleyan Methodists. Sir,-You will remember I sent to your shop for bottle of medicine round which was a paper containing testimonials of cures effected by the use of Parr's Life Pills. Amongst many others I observed one; a case of Rheumatism, which appeared to me similar to my own case, and seeing it so successfully treated, simply by the use of Parr's Life Pills. I resolved upon giving that invaluable medicine a fair trial. I had been afflicted with Rheumatism many years, and at the time to which I refer was suffering acutely. I determined, as I have said, on giving Old Parr's remedy a fair trial; and accordingly sent for a box of the Life Pills. Parr's Life Pills are acknowledged to be all that is required to conquer disease and prolong life.

No medicine yet offered to the world ever so rapidly attained such distinguished celebrity; it is questionable if there now be any part of the civilized world where its extraordinary healing virtues have not been exhibited. This signal success is not attributable to any system of advertising, but solely to the strong recommendations of parties cured by their use. At this moment the Proprietors are in possession of nearly 590 letters from influential, respectable, and intelligent members of society, all bearing testimony to the great and surprising benefits resulting from the use of the medicine. This is a mass of evidence in its favour such as no other medicine ever vet called forth, and places it in the proud distinct tion of being not only the most popular but the most valuable remedy over discovered.

The usual toasts were drunk; and the nuble Earl on his health being proposed, referred in a desponding tone to the present condition and future prospects of Sheffield. He declared he was without hope for the future, because we had not returned to the old Saxon system of barter. Mr. Wortley took up the subject and declared he was not without hope if the manufacturers and merchants attended to their business. There was no reasonable doubt but trade would revive. Mr. Gally Knight, however, gave the finishing stroke to the Freebooters. LONDON CORN MARKET, MONDAY, SEPT. 11.-During last week very considerable progress was made in harvest work, and the arrivals of all grain up to our market, if we except those of foreign Wheat, were on a very moderate scale. We have received a full average supply of New Wheat from Estex and Kent the quality of which was inferior. Old Wheat of home produce being scarce, the prices obtained were quite equal to those obtained on Monprevious rates of from 1s to 2s per guarter, and a clearance was not effected. In fine foreign Wheat a very extensive business was transacted. There was a good supply of fine foreign Barley, which met a slow inquiry. The Malt trade was dull. In Oats a fair amount of basiness was transacted. Beans, Peas, and Flour as last quoted, with little doing.

MARKET INTELLIGENCE.

BOROUGH AND SPITALFIELDS -The imports of Foreign Potatoes continue so extremely small as to be scarcely worthy of notice. From Essex, Kent. &c., fair average time-of-year supplies have come to hand in condition, while the demand is firm, at from 3s to 5s 6d per owt. 580 E

No change as regards F our ; the quantity on the market small, Old Oats have been neglected, and are 1d to 2d per bushel cheaper. Prime marks of old Meal have latterly had a little more demand at 193 to 193 6d per 240lbs; new has sold at 22; 61 to 23s. Of new Oats we have had this week scarcely any at market ; they are quoted at 2s 5d to 2s 7d per 45lbs. Barley, Beans and Peas, are each rather cheaper.

MANCHESTER CORN MARKET, SATURDAY, SEPT. 9. The weather has been of the most delightful character since our last report, and we hear, from all parts, that the crops are being secured in excellent order. During the week there was a fair consumptive demand for choice qualities of fresh manufactured Flour, which, being scarce, readily realized our ravious currency, whilst almost unsaleable. The inquiry for Oatmeal was Flour, the imports from Ireland into Liverpool and Runcorn are to a fair extent, but of other articles thence and coastwise they are unimportant; and, from foreign ports, 3008 quarters of Wheat are reported. The business passing in Wheat at our market this morning was only limited, and was 2d. per 70lbs. lower. For superfine qualities of Flour (of which the stocks in all hands are extremely light) there was a moderate demand at 42s. to 44s. per 280lbs.; but inferior sorts continued to meet a slow sale, although offered on lower terms. In Oats or Oatmeal no change was observable. New Oatmeal was salcable in retail parcels at 24s. per 240lbs. ### CASES BEFORE THE MAGISTRATES.

DUBHAN, MONDAY, SEP. 11TH .- One case occupied the attention of the Magistrates for six hours, and the other business was consequently postponed.

Lonsdale, a hewer, summoned Briden, the viewer of the Gameside coal-pit, for twelve shillings, a balance of wages due to the complainant, in consequence of his not having been provided with sufficient work to produce the amount guaranteed by the bond. The guarantee in the bond secured to the hewers, " one with another", 26s per fortnight. In a par-ticular fortnight Mr. Lonzdale had only been able to earn 14s; and his summons was for the difference between that sum and 26s.

The case was fully proved by Mr. ROBERTS ; and the viewer was called upon to answer it.

Mr. MAPSRALL, for the viewer, contended that Mr. Roberts must be nonsuited ; that he had not proved his case; that he was bound to prove, not merely that Mr. Lonsdale had not earned 26s., but the men on an average, including all of them, "one with ing a fresh breeze from the castward at the time; but another," had not earned that snm.

Mr. RoBerts, in reply, contended that "one with anther" could only mean " such and all of them;" and that the construction advanced by the other side was too monstrons to be supported by the Magistrates. The solicitor on the other side had avowed his desire to avoid all remarks calculated to widen the breach between the masters and the workmen. However he left the case with the Magistrateswhichever way they decided, good would be done; either the masters would be tanght to be more gnarded in their frauds, or the men would be W. P. The Magistrates complained of the inflammatory nature of Mr. Roberts' speech.

Mr. ROBERTS replied that he had done no more than his duty; and that the inflammatory nature of truth would never prevent his uttering it. The masters disclaimed all intention of exercising

DOVER, SEPT. 12.

This afternoon at three o'clock the Royal yacht, the Victoria and Albert, containing England's beloved Queen and illustrious Consort, passed Dover from Brighton in gallant style, with the Royal standard floating from the main, and the Union jack from the mizon. ### THE LAND! THE LAND!! THE LAND!

GLORIOUS news for those who have had the honesty and the hardihood to brave the sneer, the jeer. and the scorn of the ignorant and the timeserving. Our columns are too much crowded to admit of ample commentary upon the following extract in the present week, and therefore we shall content ourselves with simply announcing the source from whence we take it.

It is the practice with sharebrokers in the City to issue monthly circulars, with a view of conveying the best information to the public upon all matters connected with capital, securities, investments, and speculations. For many years we have been in the habit of reading those circulars, and we have invariably discovered that those issued by Mr. Alsop. of 34, Cornhill, have been the most luminous, the most prophetic, and truth-telling. man's circular of the present month; and while we shall refer to it again and again, for the present

tangible means of adequate relief and decent maintenance. Let the "leading spirits of Chartism," in every locality, see to it ! On them rests the responsibility of having this work done, and done well, It is our firm belief that the people will do their duty if the local leaders will do theirs.

Our readers will see in the report of the last day's proceedings of the Conference, that a resolution was unanimously adopted by the delegates, setting apart Sunday, September 24th, for a general and simultaneous collection throughout the kingdom in aid of the General Victim Fund. Of course, where local circumstances dictate the propriety of Saturday, 23d. or Monday, 25:h, instead of the 24:h, being the day selected for the obtainment of collections, the object of the Conference will be equally well answered. For ourselves we can see no objection why the three days should not be devoted to that object exclusively. We are of opinion that money from certain parties. and under certain circumstances, might be obtained on each of the three days : when some of it would be lost by taking either day exclusively. But within those three days let the work be accomplished, that the Committee may have at once the means of affording substantial assistance.

Our readers will also see that the delegates have appointed Mr. O'CONNOR the General Treasurer to the Association. Treasurer to the Victim Fund also All monies, by post-office order, or otherwise, must be sent-and made payable-to Mr. O'CONNOR, care of Mr. Cleave. Care must be taken to specify in the letter whether the monies sent are for the Victim Fund, or for the General Fund.

The Delegates also recommended the appointment of a General Victim Fund Committee at Manchester The following extract is taken from that gentle-by the Manchester Chartists, to whom all applications for assistance may be made. NEWCASTLE .- TUESDAY, 12TH SEPT.--nine pitmen were summoned for leaving their work : the penalty they had thus incurred was three months imprisonment. On the bond being read it appeared that the period of its expiration was "thirly four" instead of "forty-four." The coalmaster contended that this was a clerical error : Mr. Roberts on the contrary submitted that in a prosecution under a penal statute clerical errors were fatal. The Magistrates held with Mr. Roberts, and the men were discharged. Immediately on this result a coalmaster applied to Mr. Roberts " for an amicable conversation to settle it." "No," said Mr. R., " you first drag my men here as criminals seeking to consign them to a felons' dangeon; and then, when foiled in your tyranny, talk of 'settling.' First learn to treat your workmen as honest men ; and if you must have criminals seek for them amongst yourselves."

DEPARTURE OF THE QUEEN ON A VISIT TO THE KING OF THE BELGIANS BRIGHTON, TUESDAY.

According to the announcement in my letter vesterday, Her Majesty and the Royal suite left Brighten for Ostend this morning, at a quarter to nine o'c'ock. Several parties have expressed fear that the rules and objects of the Association will not be enrolled : that which is, in him, merely a ministerial act. For ourselves, we have no such fear. We know that the Barrister must enrol, if the objects, plans, and purposes of the society are legal; in accordance with law; and calculated to ensure BENEFIT to the members. Address of the National Conference to the Chartists of the United Kinodom.

FELLOW COUNTRYMEN AND PATRIOTS .- Having completed the special object of our mission in devising a perfectly legal Plan of Organization, the next duty which devolved upon us, as a Delegated body was the consideration of the situation of those ardent and generous spirits, who have become the objects of legal sacrifice for our cause. Public ingratitude-exile-the loss of healththe forfeiture of every prospect which existing institutions afford enterprizing genins to pursue the allurements of fortune-with all the privation of persecution, have hitherto been the only reward which enlightened and humane constitutional Reformers have received at the hands of those for whom they sacrificed life, happiness. and country, to rescue them from slavery. Yet, stern, unbending, and resolute; confident in the rectitude of a just and holy cause, and inspired with the assurance that whenever the millions were sufficiently enlightened. their exertions would be appreciated; invested with the most exalted sentiments and feelings which dignify the human character, they beheld degraded and enslaved humanity bleeding under the scourge of civil despotism ; every ennobling virtue blasted ; the love of liberty and the pride of nationality extinguished ; the purity of religion and the sanctity of law desecrated; the most sublime discoveries in science and government perverted, to erect a sovereign despotism of wealth and intellect over the most valuable orders of society. the industrious outcast millions ; and they willingly surrendered, when failing to accomplish the sacred design of freeing their country, to be immolated by the merciless tyrant at the shrine of imperial usurpation. Estimating properly the difficulties their efferts had to surmount, no event, however unexpected or fatal to their success, discouraged them in their arduous and hallowed undertaking. They suffered nobly, and without

complaint. To their labours do we owe the proud position which modern democracy has attained, in the intelligence, numbers, and supreme influence it everywhere exercises over public opinion. The hopes of the unhappy millions have been elevated. Tyrants no longer arbitrate and dispose of our lives, as if we were but the abject instruments of unsanctioned power. We aspire to a nobler state of existence. The spirit of the patriot has been imparted to the humblest in our ranks; and thousands have as generously sacrificed to acquire the liberty of our country, as the most active and eminent in the cause. Their destitute families now look to us for solicitude and protection. What heart can resist their claims? The ruthless arm of oppression and the oppressor's vengeance are not so cruel to the feelings of those who suffer, as would be ingratitude and neglect from us, for whom and with whom they share the vicissitudes of persecution. Our character as reformers would sink in the estimation of every class without our ranks, or amongst ourselves, were the widows and the children of our once-zealou fellow patriots, not to be the tenderest objects of our

CHARTISN IN SCOTLAND .- THE NEW ORGANIZA-TION ---- A Correspondent in Paisley, writes as follows :---

I have just read with the most lively satisfaction the proceedings of the Conference of Chartist Delegates, so far as you have been able to give them; and wait with anxiety to see the full Plan of Re-organization which they have adopted, and which you have promised to give in your next. Though there were no delegates present from Scotland, I beg to express a hope that neither you nor the men of the South will conclude that Chartism is dead in the "land o'cakes." Having read Mr. Hill's letters, and also those of Mr, Harney, I have no hesitation in giving my testimony to the truth of the statements contained in them regarding the condition in which our cause stands in Paisley, and other places both east and west of it. There are few meetings being held; little or no organization; no lecturing; no contributions; but along with the iron that has entered the soul, has entered a deep and firmly rooted conviction, that no appliance, no proposed remedy short of the Charter, is in any degree worth one moment's consideration, as calculated to remove the manifold oppressions which misrule has long imposed upon the toiling multitude; which no artifice, no showy parade, no promise from any party or person, however respectable or honest soever he may be be, can ever ablactate or destroy. Our "squeamish sensibility" about the manner in which "Hamilton Gray" presents Mr. Swing, may surprise him ; but we fancy that were he in the position of some people, made to bear a prosecution for " seditions libel," with that prosecution followed by sixteen months solitary still more. It is all very well for such men as " Hamilton Gray" to write "sterniy," in an assumed name, and get other people to run the risk of publication; and it is better still, when those "other people" hesitate to be so used by men who say "these are no times for indolent fear" (and yet write under assumed names) for these same men (with assumed names) to pretend that a "change of principle" is involved in such hesitation. Think you that the " canny Scot" cannot appreciate these, and take counsel from them? Be assured he has been and period of eighteen months, and while we were repeatedly lectured on the great advantages that would result from a total and immediate repeat of the Corn Laws, it ture passed off with its fallacies unopposed, even when it was deemed by that party, situated as we were, to be the very height of inhumanity.

This proves something surely for our fixedness of purpose, and our attachment to the great and glorious principles which we have espoused.

Scotland, Sir, is precisely the very kind of soil on which Chartism, to the best and most lasting advantage, can be made to grow. It may bourgeon more slowly than in some other and more genial climes; it may not appear so pleasant to the eye as where it is to be seen dazzling at every look ; but it is, permit me to say, more healthy on that very account, and better able to stand the blasts as they blow across the channel of adversity from time to time.

Let, then, the full decision of the Conference and the Plan of Re-organization to which they have agreed, be laid before us. Let us examine it, and digest it; and if it meets with our approval-which I think it is likely to do from what we know of it already-you will find that Scotland will rally to your assistance, and I trust that her conduct in past time is no bad guarantee for the future.

P. Q., TODNORDEN.-His advice to the "Lovers of Liberty in the Vale of Todmorden' is very good, but too lengthy for our columns. We subjoin an extract: J. The tribes of Nestorian Christians, who have inhabited the mountainous district of Chaldea from a period earlier than the first invasion of that country by the Mahomedans, have recently been attacked and butchered with inhuman cruelty by the Pacha of Mosul and a number of Kurdish Chiefs. The Constantinople correspondent of the Morning Chronicle gives the following account of this atrocious massacre, and adds, that it originated in jealousies of the designs of the Nestorians instilled into the mind of the Pasha, by the rival missionaries of the Church of England and the Church of Rome, both of whom wished to supplant the American (Independent) missionaries who first found out these interesting people, and were labouring faithfully amongst them. In consequence of rumours that the Americans, assisted by the Nestorians, were about to build forts in the mountains, and of mutual complaints addressed to the Pacha of Mosal by the English and Roman Catholic missionaries, that chief assembled an army, which he sent into the mountains to attack the
