TO THE WORKING CLASSES.

MY FRENDS,-

From the establishment of the "Northern Star" down to the present moment, my pride is, that it has been the only channel through which your cause would be fairly and impartially discussed; that in fact, its columns have ever been open---not only to fair and generous ever been open----not only to fair and generous opposition of my views, but to the most viru-composition of my views, but to this I have not the lent abuse of me; and to this I have not the

land and in Ireland, has been how to wrench your order from their fangs ; and the greatest difficulty against which I have had to contend. has been the strength of the cats and kites, consequent upon the weakness created by the disunion, the jealousy, and ambition of the larks and the mice. Let me now explain to you my reason for thus addressing you. I understand that Mr. JAMES LEACH-recently released from Kirkdale prison-has invited the Manchester working men to resist sternly. the proposed union between the veritable middle and working classes. It would be not only a crime, but a sin, upon my part, and upon yours, to meet arguments, however fallacious, by mere denunciation ; as by argument alone-and by fair argument too-can we arrive at the proper solution of a question; and, therefore, I throw open the columns of the "Star" for the general discussion upon this subject, to JAMES of Saturday last. It is published in that

His death hath imposed upon his country a heavy responsibility, but one, which I hope will be readily undertaken. He has left behind him to lament his untimely end, a wife and six dear children, who must henceforth look for paternal protection to the democracy of England. I put it to you all ; will you not be fathers to the fatherless ? (Loud cries of "We will, we will"). Poetry. IMPROMPTU ON RECEIVING AN EAGLE'S QUILL FROM LAKE SUPERIOR. DY J. G. WHITTIER. All day the darkness and the cold Upon my heart have lain, Like shadows on the winter sky, Like frost upon the pane! But now my torpid Fancy wakes And, on thy Eagle's plume, Rides forth likes Sinbad on his bird, Or witch upon her broom ! Below me roar the rocking pines. Before me spreads the Lake. Whose long and solemn sounding waves Against the sunset break. I hear the wild Ricc-Eater thresh The grain it has not sown ; I see with flashing scythe of fire The prairie harvest mown ! I hear the far-off voyager's horn ; I see the Yankee's trail-His foot on every mountain pass, On every stream his sail. He's whittling round St. Mary's falls. Upon his loaded wain ; He's leaving on the Pictured Rocks Ilis fresh tobacco-stain.

I hear the mattock in the Mine, The axe-stroke in the dell, The clamor from the Indian lodge. The Jesuit's chapel bell ! I see the swarthy trappers come From Mississippi's springs; And war-chiefs with their painted brows And crests of eagle-wings. Behind the scared squaw's birch canoe The Steamer smokes and raves : And city lots are staked for sale Above old Indian graves. By forest lake and water-fall I see the pedler's show; The mighty mingling with the mean, The lofty with the low. I hear the tread of pioneers Of nations yet to be : The first low wash of waves where soon Shall roll a human sea. The rudiments of empire here Are plastic yet, and warm : The chaos of a mighty world Is rounding into form ! Each rude and jostling fragment soon Its fitting place shall find-The raw material of a State, Its muscle and its mind ! And, westering still, the star which leads The New World in its train. At present we can do no more than indicate that the basis of taxation proposed is the capitalised income derived from labour, and all sorts of property, estimated at so many years' purchase:—for example, the wages of a labourer at $7\frac{1}{2}$ years, leasehold property at $12\frac{1}{2}$. real property, consisting of houses, at 15, and land at 20 years, which for Great Britain and Ireland is estimated at £6,274,508,125 ; a tax of ‡ per cent. on which would realise a revenue of £47,058,811. The enormous saving in the expense of collection, the unspeakable advantages of freeing industry, commerce, and manufactures from the incubus of the Customs and Excise, the checks upon jobbing, patronage, and needless expenditure, the doing away alike with smuggling and the preventive ser vice, and many other advantages, social, moral, and political, anticipated from the proposed change, are most ably set forth ; and even those who may not be

Mr. BERWICK --- I beg your pardon, my Lord. 1 did promise nothing of the kind. In about an hour the flames enveloped the rigging in their destructive folds, mounting mast high with a thousand tongues of roaring fury, throwing their red and lurid glare with a fewring reference. Lord Roden went on to ask whether it must not be regarded as a punishment for these men to be coming into town from their distant homes for trial ? Is it not punishment that they should be put to the expense of hiring counsel to defend them, or finding with a fearful reflection over the city, Brooklyn Heights, Brooklyn, and a perfect forest of masts, security for their appearance at the assizes ? Could while in Broadway it appeared as if the deep and roscate twilight of dawn illumined the eastern hea-vens. The refusal in the present instance would not prevent the further consideration of the case : an', however others might do, he could not consent to what he believed would be an act of great inju-ticenamely, granting informations against these men. As the chairman of the court, he had deemed it but his duly briefly to state the reasons which led to the decision he had just given.

The Rev. Mr. FORDE, another of the bench, said he felt it his duty, as a magistrate, when a doubt arose, to give the accused the benefit of it. Seeing that there was what he conceived to be a very grave doubt in the present instance, he, for one, could not agree to take the informations.

The only question now before them was one purely of lawnamely, whether or not the procession was unlawful. It had been stated in evidence that previous to the last 12th of July there had been apprehensions entertained, and that precautions had to be taken to protect the county from riot and outrage. Had it not been thus treated, the consequences might have been more fearful than they were. It appeared that a collision actually did take place on the evening of the day in question, and that five persons lost their lives. THE BERMONDSEY MURDER.

RE-EXAMINATION OF THE MANNINGS AT SOUTHWARK POLICE OFFICE.

On Saturday last, Frederick George Manaing, and Maria, his wife, were again brought up for reexamination, before Mr. Secker, magistrate of this court, charged with the wilful murder of the late Patrick O'Connor. The court was crowded to excess with spectators of both sexes, and outside a large concourse of persons assembled, anxious to see the prisoners as they arrived from Horsenwhgerlane gaol. The excitement at first produced by this extraordinary case continued as intense and as general as ever. The seats near the bench were occupied, as on previous occasions, by several persons of distinction.

About half-yast two o'clock the police van containing the prisoners drave up into the courtward in the rear of the police-office, and in a few minutes afterwards Manning and his wife were escorted into the dock by the police, where they at first were accommodated with chairs. The male prisoner appeared to be in ill-health and depressed in spirits; but his wife looked cheerful and quite weli, and conversed in an under tone with Mr. King, the governor of the gaol, who sat in the dock just behind her, Mr. Binns, the male prisoner's professional adviser, also sat next his client, and between the two prisoners. Mr. Bodkin and Mr. Hayward attended as before, on the part of the Crown, for the prosecution.

Mr. KEANE, the governor of the gaol, who stood near Mrs. Manning, stated that she objected to the case being proceeded with until her selicitor was present. He arrived in a few minutes, when Mr. Edwin, the chief clerk, proceeded to read over the depositions of the witnesses already examined, excepting those of Bassett and Hammond. As the depositions of Bassett (now no more) were not signed, some difficulty may arise as to their reception as evidence against the prisoners. Ilis statements formed a most important link in the chain of. evidence which proved the disposal of the railway shares by Manning, and traced the changing of the bank-notes, and ultimately their subsequent posses sion to the female prisoner. It was stated that though Hammond, the fellow-clerk of Bassett, had partly recovered from his severe attack of diar. hea, he was not likely to be well enough to attend that day. Some trifling corrections were made in parts of the evidence, as taken down by Mr. Edwin, the chief clerk.

Mr. LOCKWOOD, the surgeon, for instance, said that he did not state positively that the spots upon the coal-shovel were spots of blood. They might be rust, and probably were; but he could not say positively whether they were rust or blood. The hair he found attached to it was not longer than that of the deceased.

The reading of the depositions was not over until three o'clock, when the witnesses were called on to sign them; in the course of which proceeding Mr. llammond (who, when called, did not appear, being, as was stated, ill from an attack of diarrieun) was announced as having arrived, when his evidence was also read over to him and signed. The witnesses generally were then bound over to appear at the October sessions, to be held at the Central Criminal Court, commencing October 22.

The prisoners were then called on to stand up; but, on the application of Mr. Binns, the male prisoner was allowed to remain sitting, on the ground of being extremely ill ; and he looked 30. Mr. SLow, who had possession of the teeth of the deceased, here produced them ; upon which

sell-street, Bermondsey. I recollect the male prisoner at the bar (whom she identified), as having come to my father's house and bought sixpennyworth of lime on a Monday. I asked him what sort he would have-white or grey. He said he did not mind which; he wanted that which would burn the quickest. I told him I did not know which would burn the quickest. I told him we had no white : he said he would have the grey. He paid me the six-

pence, and desired the lime to be sent, asked for a pen and ink, and wrote a direction on a bit of paper, which I gave to the boy Walsh, who took nome the lime .- By Mr. Bixxs: The maid servant was at home at the time. I spoke to Mr. Manning in the yard. The servant was present ; her name is Ann Taylor. She is not here. She heard what Manning said on that occasion. I heard of this transaction through the boy Walsh. I spoke to Mr. Hayward yesterday about it. I did so then for the first time. I sought Mr. Hayward, not he me. I was taken there by my father, at the request of Inspector Yates. It was about a month after the nurder was committed that I heard of it. The boy Walsh told Ann Taylor about the murder at the same time. I had a conversation with my father about it, but he was told of it at the same time. I said what I know about it when spoken to, just what I have said to-day. I have read about it and spoken to others of it. I have not read the accounts all through. I have read Walsh's evidence ; 1 -poke to him about it afterwards. We did not read it together. Parts of it I did not read .- What are the parts you did not read? (Laughter.) 1 read all that was in the Patriot, but not all that appeared in other papers.

HARRIET FERMER .- I carry stay laces, &c., about the streets for sale. I remember being in the neighbourhood of Minver-place on a Friday, and hearing that a dead body had been found. I saw some police-men about the house No. 3, on that day. On the Saturday before that Friday I was in the neighbourhood, and saw a person cleaning the outside of the house No. 3, Minver-place. I saw that person (iden-tifying Mrs. Munning). I said, "If you please ma'am, do you want a person to clean your steps ?" She said, "Come on Monday." I said I could not. She asked me how much I would charge for cleaning part of the house inside. I said fivepence; and she desired me to come in. She asked me to wash some blinds. I said I could not do that, as I had cut my hand, but that I would clean up the back kitchen. She said she had cleaned both back and front kitchen herself the day before. She afterwards said I might do the back kitchen. I noticed there a basket, which was white as if from lime, and she asked me to clean it out for her. But I could not do it on account of my hand. She then scrubbed the basket herself. (The witness her identified the male prisoner as the other person she saw in the house No. 3.) When I came up with the female prisoner, he stamped his foot, saying, "Give it to me, directly;" and she said, "I will." She gave him something, but I do not know what it was. He came in and out twice while I was there. I live with my father and mother in Staple-street, Bermondsey.

MATILDA WELDEN .-- I am servant to Mr. Bainbridge. I remember Mr. Manning coming to my master's house on the 13th day of August. (Identified the prisoner Manning.) He sent me on that day to No. 3, Minver-place, but I could not find it. He went out himself then, and brought back a bottle of brandy. Mrs. Bainbridge asked him if his wife was coming, and he said, "No, she's gone into the country." Leannot say exactly whether his answer was, "She is gone into the country," or "I have sent her into the country," but it was one or the other.

They were dressed as on Saturday, and bore much the same appearance in health, Mrs. Manning looking quite well, and her husband still pale and sickly. He did not, however, seem so dejected; he walked more buoyantly to his usual seat, and soon was observed to laugh somewhat merrily at some remark made to him by his solicitor, Mr. Binns, who, with Mr. Solomons, had taken their seats at three o'clock. Neither the magistrate nor the professional gentlemen for the prosecution were then present, nor did they enter the court for some time after the prisoners, and all other necessary persons appeared in their respective places. During the delay, which, we believe, was occasioned by the absence of Mr. Bodkin, Manning held rather a long conversation with Mr. Solomons; and Mrs. Manning's complexion, generally good, rose to a still deeper hue. She threw off her mantle, and changed her position, to four o'clock the magistrate, Mr. Secker, took his seat on the bench, and was followed by Mr. Hayward, solicitor to the prosecution ; but Mr. Bodkin tion would have been made as on the last day for the permission of the court to sit.
