His intention was good, and the Refugees elected this Committee; but six weeks afterwards the Refugees being dissatisfied with the anti Democratic actions of this Committee, declared to the English Committee that it had been dissolved by them.

Mr. Bartochowski, accused by the Poles, appeared before the English Committee with his books writ-ten in the Polish language. Although the accused, he translated his own books, and on his own saying books properly examined.

A commission was chosen amongst the Poles to order the books of Bartochowski, and the report was given publicity to in the Sun, Tuesday, 19th of November, wherein is said, that Rola Bartochowski has abused the confidence with which he was

honoured by the Refugees. To divide the Refugees amongst themselves, to annul the sympathy of the English Democrats for the Refugees, and to force them afterwards to fall Conference, but leave time and place to the into their net, such are the sinister intentions of the friends of Czortoryski.

A spy at last was received on the funds against the unanimous wish of the Refugees, who demonstrated and defended their Democratic rights. Then a resolution was passed that no Pole should be heard on the Committee; thus robbing men who left behind their family, position, and fortune, of their inalienable rights. GOD'S WORLD IS WORTHY BETTER MEN.

Behold ! an idle tale they tell : But who shall blame their telling it ? The rogues have got their cant to sell, The world pays well for selling it ! They say this world 's a "desert drear," Wrapt in their own stark blindness; That men were sent to suffer here :--What! by a God of kindness ?-That, since the world has gone astray, It must be so for ever ; And we must stand still and obey Its Desolaters. Never ! We'll labour for the better time, With all our might of Press and Pen ! Believe me, 'tis a truth sublime, God's World is worthy better Men.

With Paradise the world began,---A world of love and gladness; Its beauty hath been marred by man. With all his crime and madness Yet 'tis a bright world still. Love brings Sunshine for spirits dreary ; With all our strife, sweet Rest hath wings To fold o'er hearts a-weary. The sun, in glory like a god, To-day in heaven is shining The flowers upon the bloom-rich sod Their sweet love-lessons twining, As radiant of immortal youth As they were fresh from Eden. Then. Believe me, 'tis a noble truth, God's World is worthy better Men.

O, they are bold and over bold, Who say we're doomed to anguish; That men, in God's own image souled, Like hell-bound slaves should languish ! Probe Nature's heart to its red core, There's more of good than evil; And man-down-trampled man-is more Of angel than of devil ! " Prepare to die ?"-Prepare to live ! We know not what is living ; And let us, for the world's good, give, As God is ever giving ! Give love, thought, action, wealth, and time, To win the primal age again. Believe me, 'tis a truth sublime, God's World is worthy better Men! GERALD MASSEY. The Leader.

Purchasing the de-bentures of the soldiers in Cromwell's army in Ireland, and then buying the confiscated estates from improvident or straitened allottees. It would almost seem, indeed, from the career of Sir William Petty, and of Boyle, Earl of Cork, that, in the seventeenth century, Ireof Lansdowne-the ancestor of the present beginning :-Cork, that, in the seventeenth century, Ire-land was a greater field for unscruptions, greedy, and pushing adventurers than India, during the earlier stages of its conquest and acquisition, or the Colonies now. Where the carcase is, there the vultures will follow Cromwell laid waste the land with fire and sword, and then distributed it among his vic-torions soldiers. They were followed by usurers and money-lenders—persons ready to it ake advantage of weakness, necessity, im-priedence, or ignorance; and by chica-nery, and that species of bargain-making which sticks at nothing to compassi its object. It is curious, too, to observe the when the species of the state for the full of object. But these regular emoluments of his post were far from being all that he got out of it. Ireland was, throughout the whole got out of it. Ifeiand was, throughout the most compting re-gion of adventure for English ambition; it was what the New World had been in the sixteenth, and what India became in the eighteenth; though what made it so rich an El Dorado, or land of gold, was not so much its natural wealth as the succession of public calamities by which it had been torn jugations, which again and again threw it down a grass; and, whether it were a defect or a merit of helpless prey for the spoiler. Petty writes his title the Sicilian character, threw off, for the moment, and crushed, the divisions and ever following subat full length as, "Physician to the Army who had suppressed the rebellion begun in the year 1641, and to the General of the army and the Wear 1641, and 1654, I, perceiving that the admeasurement of the lands forfeited by the aforementioned rebellion, and intended to regulate the satisfaction of the soldiers who had suppressed the same, was most insufficiently and absurdly managed, I obtained a conciently and abstrary managed, 105taned a con-tract, dated 11th December, 1654, for making the said admeasurement; and, by God's blessing, so performed the same as that I gained about £9,000 thereby; which, with the £500 above mentioned, my salary of twenty shillings per diem, the benefit of my practice, together with £600 given me for directing an after-survey of the Adventurers' lands, and £800 more for two years' salary as Clerk of the Council, raised me an estate of about £13,000 in ready and real money, at a time when, without art, interest, or authority, men bought as much land for ten shillings in real money as at this year, 1635, yields ten shillings per annum rent above his Majesty's quit-rents." Part of this money he kept in cash to answer emergencies; with part of it he purchased the house and garden of the Earl of Arundel, in Lothbury, London; but the greater part he invested in soldiers' debentures, with which he purchased lands in Ireland at the low price above described. Aubrey affirms that these lands pro-duced him a rental of  $\pounds 13,000$  a year.

The part of Cassius in Julius Casar has been so we become in our dim apartments pare and deficate, we grow to look refined, as gentlemen and ladies ought to look. Let the sanitary doctor at whose head we throw lettuces, go to the botanist and ask him, How is this? Let him come back and tell us. Oh, gentleman, in these vegetables the natural juices are not formed when you exclude the light. The natural inices in lettuce or in celera are formed when you exclude the light. The natural juices in lettuce or in celery are finely maintained), yet still the naturally affectionate flavoured much more strongly than our taste would foundation is constantly kept in view, and seems relish, and therefore we induce in these plants an imperfect development, in order to make them eatable. Very well. The natural juices in a man are stronger than good taste can tolerate. Man re-the neck of Brutus denoted not only admiration, quires horticulture to be fit to come to table. To rear the finer sorts of human kind, one great opera-tion necessary is to banish light as much as pos-is likely to advance him in public estimation. The tion necessary is to banks light as much as pos-sible. Ladies know that. To keep their faces pale, they pull the blinds down in their drawing-rooms, they put a veil between their countenances and the sun when they go out, and carry, like good soldiers, a great shield on high, by name a parasol, to ward his darts off. It is a vapid work, with no intrinsic merit to recommend it, In anticipation of Christmas and New Year the only pleasing feature in it being the genuine good humour which Mr. Webster infuses into the character of the Young Quaker, a youth of excellent disposition, but somewhat lax in his habits.

ROYAL POLYTECHNIC INSTITUTION.

During the past week Mr. George Barker has been engaged in delivering a lecture on the Ballad Music of England, the subject being the Lays of the Foresters or Songs of Robin Hood. It is not to be expected that the lecturer could give a biography of the bold outlaw in the short space allotted to his lecture, nor is it necessary—for who is unac-quainted with the romantic history of the Forester, and his equally celebrated chaplain Friar Tuck, the stalwart priest, who could bring down a fat buck with a cloth-yard shaft, with as much ease as he could repeat his *paternosters*? The lecturer merely touched on the more prominent events of the lives of these two worthies, and a sung some appropriate ballads to illustrate each. is the song in which he brawny friar is described, a jis as amusing and as droll as the other, which Robin the received an unanimous encore, and indeed the whole lecture was well received by a crowded a audience, who frequently interrupted the lecturer of the bold outlaw in the short space allotted to

A NEW MUSKET. — A successful trial has been made at Portsmouth, in presence of several military gentlemen, of a new musket, which saves one third of the time in priming and loading, and simplifying the drill exercises. Seventy rounds may be fired in succession without priming; the caps, being placed in the magazine, are acted upon by the action of the ramrod.

through some inadvertence, inserted the same article in two successive numbers of the periodical, was re-proached for carelessness. He replied, "You are quite in error; the reason for the second insertion was this—my subscribers approved the article so highly, that it was encored !" THE ARCHDEACON AND THE ARTIST.—Archdeacon Fisher was not without a little vanity on the subject of his sermons, and once received a quiet hint from Con-stable on the subject. Having preached an old ser-mon which he was not aware that Constable had heard before, he asked him how he liked it ? "Very did like that sermon."—Leslie's Life of Constable, "I always sometimes forgetful, having been engaged to plead the cause of an offender, began by saying :—"I know the prisoner at the bar, and he bears the character of being a most cosummate and impudent scoundrel !" being a most cosummate and impudent scoundrel !" PRICE 4 PENCE. Orders and Advertisements to be sent addressed o the office of the Northern Star, London ; or to A Nottingham; J. Guest, Birmingham. CHRISTIANITY IN RELATION TO BOTH.

The opportunity thus alluded to is now presented by certain arrangements which the ENGLISH AND CAMEBIAN ASSU-BANCE SOCIETY has made in order to meet the views and suit the circumstances of the industrial classes. Every working man may avail himself of these advantages to ecure a provision for his wife and children when they shall become the widow and the orphans. Every poor man's wife may now call upon her husband to fulfill the most sacred obligation which he owes herself and their off-

spring. There are few persons so ignorant as not to understand the general principles of Life Assurance. But hitherto the advantages thereof have been limited to the upper and middle classes, from the fact that yearly, half-yearly, or at least quarterly payments have been required — with which conditions the working classes have necessarily been altogether unable to comply. The EXGLISH AND CAMBELAN ASSUBANCE SOCIETY now proposes to extend the benefits of Life Assurance, in all its details, to the millions benefits of Life Assurance, in an its decains, to the infinitions generally, by allowing the requisite payments to be made WEEKLT. The experiment now commencing in the metro-polis, will be applied to the provinces so soon as the ne-cessary arrangements can be carried out. Not only have the means, but likewise the convenience, of the working classes in London been taken into consideration in the adoption of the initiative process; and while it is resolved to receive fractional payments at short intervals, it is also determined to spare the time and the fatigue of the insurer as much as possible. For this purpose Four Offices have been opened in different parts of London, at which the weekly payments will be received either on the Saturday evening from seven till ten, or on the Monday morning rom ten till three.

#### FAMILIAR EXAMPLES.

It has been stated above, that the benefits of Life Assurance, IN ALL ITS DETAILS, are now extended to the millions by the present arrangements. A few illustrations will show the working classes the various means by which these arrangements can be made available.

8. Suppose that a young tradesman, in the early strug-gles of business, becomes involved in difficulties from which he is however confident of being enabled to extricate himself by means of his industry and his pros-pects, if time be allowed him; he will find that by assuring his life for the benefit of his creditors, the time he requires or the compromise he may wish to make will be readily granted.

Mr. Hayter, then Judge-Advocate, who pro sided on the part of the Government, displayed throughout an exceedingly hostile animus to Mr. O'Connor and the Company, and drew up a Report condemnatory of the plan, in toto. That Report was, however, negatived by a large majority of the Committee, and a Report agreed to, to be presented to the House of Commons, in which it was stated, that, though the Company was illegal, yet it had been entered into, and conducted bona fides by all connected with it. that so far from any imputation resting on Mr. O'Connor of a pecuniary character, it was proved that he had advanced several thousand pounds of his own money, and that his personal honour and integrity were fully established by the investigation. The Committee, therefore, recommended either that the promoters should be allowed to amend the constitution of the Company, so as to bring it within existing statues, or that facilities should be given for winding it up with justice to all parties.

Keep in remembrance that the illegality of the Company had never been denied; but, on the contrary, there had been a constant, earnest, and expensive series of efforts on the vantage of their own wrong.

Having thus amply vindicated his own personal conduct in the transaction, Mr. O'Convoured to obtain Registration; under the Committee, but still that officer refused to perform what, in all other cases, is merely a ministerial duty. This course forced Mr. O'Connor to have recourse to the Queen's Bench, for a mandamus to compel the Registrar to perform his functions. The mandamus was granted with leave to answer ; and, thereupon, a protracted and expensive litigation ensued between, what was really the Government on the one hand, and Mr. O'Connor, as an individual, on the other; because, by this time, all these occurrences had produced their natural effect. Public confiwas no legal power to compel them to do so; dovernment and the Legislature perverted and thus, at the very moment when funds and unanimity were most needed, Mr. O'Connor and the Directors found themselves left almost Foiled in the attempt to have the Society, alone, to cope with the difficulties of their

What was the consequence? The Court of Exche-quer was now compelled to entertain this question. Let us, however, remember that all the elements requisite for decision had been already before the Court of Queen's Bench. That Court knew all that therefore might safely have decided this point, and thereby saved all further discussion. again the case has been re-argued at an enor-mons expense. We give the result of that re-hearing with some comments thereon, in the following lead-ing article from the Times—a journal the very reverse of friendly to Mr. O'Connor—by no means disposed to criticise too severely the means disposed to criticise too severely the means disposed to criticize too severely the judges of the land, or any other of its institu-tions yet, whose thorough English detesta-tions of mean, cowardly, Jesuistical persecu-tion? and injustice, has dictated this severe critique:— A curious illustration of the peculiar principles of English jarisprudence was afforded some days since in the somewhat remarkable case of "O'Con-since in the somewhat remarkable case of "

After the agreements were fairly signed, it turned out that the Frenchmen had, in their igno-rance of English money, fallen into a sad mistake as to the value of an English shilling, and had understood it to mean a florin, about one shilling and eightpence, to them rather a serious error. Up to Saturday last they had worked four days,

"If it were possible for the working classes, by com-bining among themselves, to raise, or keep up the general rate of wages, it need hardly be said that this would be a thing not to be punished, but to be welcomed and rejoiced at." STUART MILL. When we selected the above quotation from the writings of Mr. Mill, the celebrated writer upon Po-litical Economy, we did so from a thorough conof their legal or presumed legal effect, because we still retain our opinion of their utter illegality. But what shall we say to the cause, and to the men who can stoop to such practices, to accomplish their detestable designs upon the rights and freedom of Englishmen? We can have no fear for the result-it is not possible that such knavery can succeed.

We turn from this disgusting subject to one of a more pleasing character. The reduction, which we announced last week as having been offered to the thick wire drawers of Birmingham, has, by the energy and promptitude of the Central Committee, been withdrawn, and the men have returned to their work at their old prices. We rejoice at this, because the reduction offered, if successfully accomplished, would not only have seriously affected the whole of a numerous and very hard working body of men in Birmingham, but would have thrown out of work entirely every alternate man, which would again have had a tendency to have still further depreciated the value of the labour of those left in employment. Whatever benefit could have accrued to the employer could have been but short-lived, because other employers would have been driven to the same course of conduct, and the only ultimate effect would have been a deep direct injury to a numerous body of industrious men, and a probable increase in the poor rates of the district, without the slightest compensating benefit to any other individual. We therefore feel proud of Mr. Green's success, who acted in this case with his usual discrimination and. promptitude. His interview with the manager having been unsuccessful, he instantly issued a hand bill, detailing the particulars of the dispute, got them well oirculated in the district, despatched them by the first post to all parts of England and Wales where this business is carried on, and called a public meeting at the Public Office, where the whole affair was submitted to the ordeal of public opinion. A copy of the bill was also forwarded to Mr. Brown, the proprietor of the works, at Halifax. In a few days that gentleman arrived in Birmingham, and the manager in Monmoutholme (from whence he originally came) to seek for hands. But judge of his surprise and mortification when he found the men fully prepared to meet him, with a salutation to this effect, "Well, Smith, you have been at your old tricks again in Birmingham, but it will not do.

With these facts before them is it not surprising that they do not rally round this movement in their thousands, and make it a truly National defensive confederation of British labour ? A mighty league, whose behests are conceived in justice, and exercised in moderation, should be irresistible. The equitable adjustment of wages would then in every trade be found to be shorn of all its difficulties. Labour Boards, composed of masters and workmen in equal proportion, and presided over by some competent and impartial president, would soon be able to discover the just means which wages should bear to profits, and the haphazard scrambling of the present system superseded by some fixed principle, subject to such variations as the laws which affect and regulate the value of productions would suggest, and not as now, to be left to the mercy or the caprice, or rapacity of a mere section of the profitmongers, who force the more honourable to follow their bad example and practices. RESPECTED FRIENDS, -Having read in the last Northern Star an account of a person of the name of Perry, of Wolverhampton, wishing to catechise the magistrates of that place, because they decided in favour of the sons of toil, against himself, he having no argument to support his observation, must resort to mean subterfuge, which none, but those who are deficient in the sterling truths of moralty and religion, would condescend to, by making such personal remarks as itinerant Chartists. Every honest man will admit, that the magistrates, or any other body of men, sitting as arbitrators on any point, have a right to avail them-selves of the evidence of any man, or body of men, who could throw a light on the subject; and he must be a knave, indeed, who would wish to confine it to class, creed, or colour.

I should be sorry to interfere between men and their employers, but when such observations are made by persons who we ought to expect better from, I can do nothing less than stamp my mark of disapprobation on such conduct.

I have not had any correspondence with you on any subject before. Nevertheless, I have attentively watched our proceedings, and, as a body, I admire your care to abandon strikes, and substituting arbitration, it being wise, friendly, easy, and cheap; while strikes are difficult, useless, and injurious, alike to employers, men, and the trading community at large. But, if either party will not submit to reason, the evil must rest at their own them, when they get other work. The Perrys door.

Men, generally, are not fit judges in their own matters; therefore a third party is more sure to determine rightly. Your object seems to be justice to all ! I have, therefore, enclosed you five shillings as a donation to your general fund. Wishing you success in your undertaking, and when tyranny duce the parish to prosecute. This is a dodge, which for its excessive ingenuity and meanness, is should be attempted by either the employers or the employed, you, as rational beings, will step in, and by reason and friendship, decide for or against, as well worthy of its author, but we hope the wily Jesuit will be disappointed in his wolfish designs. ADDITIONAL CONFESSION OF THE BOY CLINTON. The prisoners in custody, charged with this robbery, were again brought up at Bow-street, on Saturday last. The evidence of all the other witnesses having been read over,

Mr. JOHN SAUNDERS, landlord of the York Hotel, Waterloo-road, was then sworn, and identified Gardiner, and, to the best of his belief, the prisoner Clinton, as persons who had come to his house about five weeks ago. They had with them a small terrier it had not been for the tricks of the dog, I should house in Kilkee was converted into an hospital; all not have taken any notice of the prisoners. I have no doubt that Gardiner was the owner of the dog, as he put him into his pocket, and then entered into conversation with me about him.
